2 Section Overview:

wallee payment solution for SAP commerce cloud

The plugin developed by PIT Solutions AG is a SAP Commerce Cloud (previously known as SAP Hybris) payment extension to handle the interaction with payment gateway and SAP Commerce Cloud checkout flow. This extension can be integrated in different projects which utilizes wallee, a single payments platform to accept payments online.

This official plugin is compatible with the following standard stop system

SAP Commerce Cloud -> cloud hosting by SAP or public cloud (previously known as SAP Hybris)

SAP Commerce -> on premise version (previously known as SAP Hybris) and it is easy to integrate in your web shop.
