Special Price Countdown

Product specification

Special Price countdown extension is a Magento 2 extension developed by PIT solutions which enables admin users to inform customers about the special price end date via a countdown timer on product view page.

Features

1. Enables admin users to show a countdown timer until special price offer ends.
2. Option to Show/hide countdown timer for individual products on offer. Provide option to configure timer for Simple, Downloadable, Virtual, Configurable, Bundled and grouped products
3. Enable/ Disable the extension
4. Supports access control for admin users.

Prerequisites

Magento Community 2.3.x, 2.4.x

Installation

To install special price countdown module follow the steps below.

Step 1: Download Special price countdown module extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into app/code/Pits/SpecialPriceCountdown/ directory.

Step 3: Run the following commands to complete the installation.

1. Enable the module - php bin/magento module:enable

2. Update of the database - php bin/magento setup:upgrade

3. Generate and pre-compile classes - php bin/magento setup:di:compile

4. Deploy static files - php bin/magento setup:static-content:deploy

Configuration

From the admin backend, go to Stores > PITS Configuration > Special Price Countdown Configuration

Figure 1

Configure Special price countdown timer

## General Configuration

1. Enable - Select Yes to Enable the module

Figure 2

2. Countdown Title – Enter title to be displayed in product view page

3. Click Save Config and clear the cache.

Product Configuration

1. Configure Advanced pricing

- Open the product in edit mode.
- Under Price, click Advanced Pricing.
- Enter the special price to offer a discounted price during a specified time period

Figure 3

2. Activate Countdown timer

In order to display special price timer on product view page set Display Special Price Countdown Timer field to Yes

Note: For Configurable and grouped product you need to activate countdown timer for both parent and child products and timer will be based on child product price.

Special price timer will be displayed to bundle product based on special price end date provided in parent product.

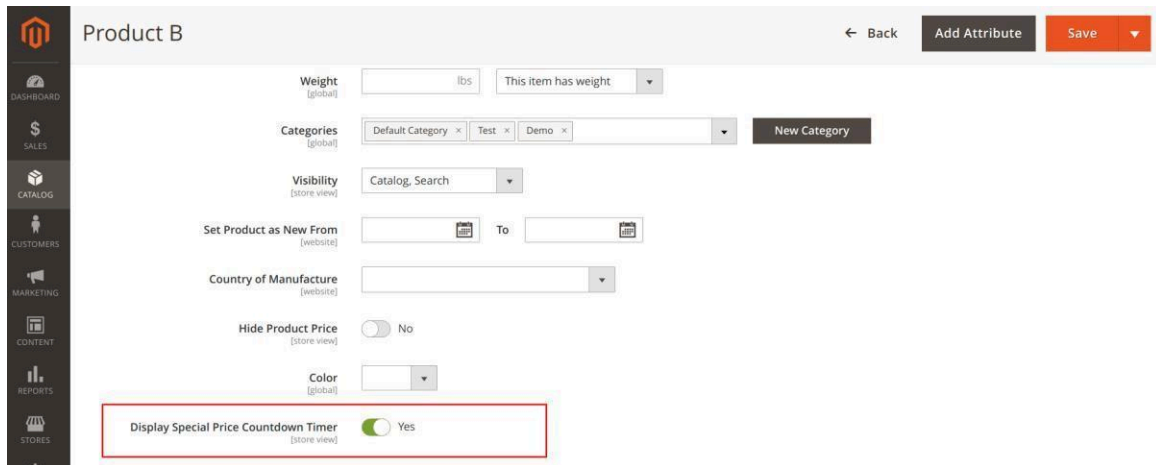

Figure 4

The timer will be displayed in the frontend as below.
