

Edit Order for Magento2

Product specification

Edit Order is a Magento 2 extension developed by PIT solutions which allows administrators to quickly edit order information in Magento 2 admin panel, including order status, shipping & payment methods, and adding order notes, without creating a duplicate order or cancelling the order and creating a new one.

Features

- No Duplicate Orders: Eliminates duplicate orders upon editing.
- Edit Order Items: Add or remove simple, configurable, downloadable, virtual & grouped products in orders from Admin panel.
- Quick Existing Order Edit: Quickly edit existing orders (like billing and shipping, item information) directly from the Order Details page, thereby saving time and effort.
- If we edit order after creating invoice, remove or reduce quantity, then credit memo will be created automatically (only for supported offline payment methods)
- Recalculate Shipping: Shipping can be recalculated during order edit
- Delete Orders: Permanently delete orders from database.
- Enable/ Disable the extension.
- Access control for admin users: Allow/Deny privilege to edit orders based on user roles
- Invoices are generated automatically while edit the order items if any invoice is previously done.
- Add grid color based on Order Status, Payment Method, Customer Group in Orders, Invoices, Shipment & Credit Memo

Prerequisites

Magento Community 2.3.1 and higher versions

Installation

To install Edit Order module, follow the steps below.

4. Add Grid Color

Once you add order status color in the Orders, Invoice, Shipment & Credit memo, it will be easier to scan:

0	rde	ers								Q	🌲 上 hpshar
c											Create New Order
S	earch	by keyword		Q			T Filters	💿 Default View 🕶 🤤	Colors 🔺	💠 col	umns 👻 🏦 Export
5	Actions						Colorize by Status	< 1 of 1

	_	00000010	Main Website Main Website Store	Dec 21, 2022 1:04:28	Veronica	Veronica	453.71 853.71	Canceled	1ew		

To add Grid colors, click on 'colors' button in the grid and choose option from the 'Colorized by' dropdown and set color for each option.

Example - For order gird, you can select 'Colorized by' status and then set color for 'pending' status as yellow and 'complete' status as green. When you go back to the order grid to check it, you will see that the order status color has changed.
