1. Introduction

Communication has become an essential aspect of modern life, but typing long messages or emails can be challenging for some people. To address this issue, the Voice to Text chatter plugin allows users to convert their spoken words into text. With its voice-to-text feature and use of Google web speech API, the plugin delivers accurate and relevant chat messages, creating quicker messages and enhancing communication speed. The user-friendly design makes it easy to use.

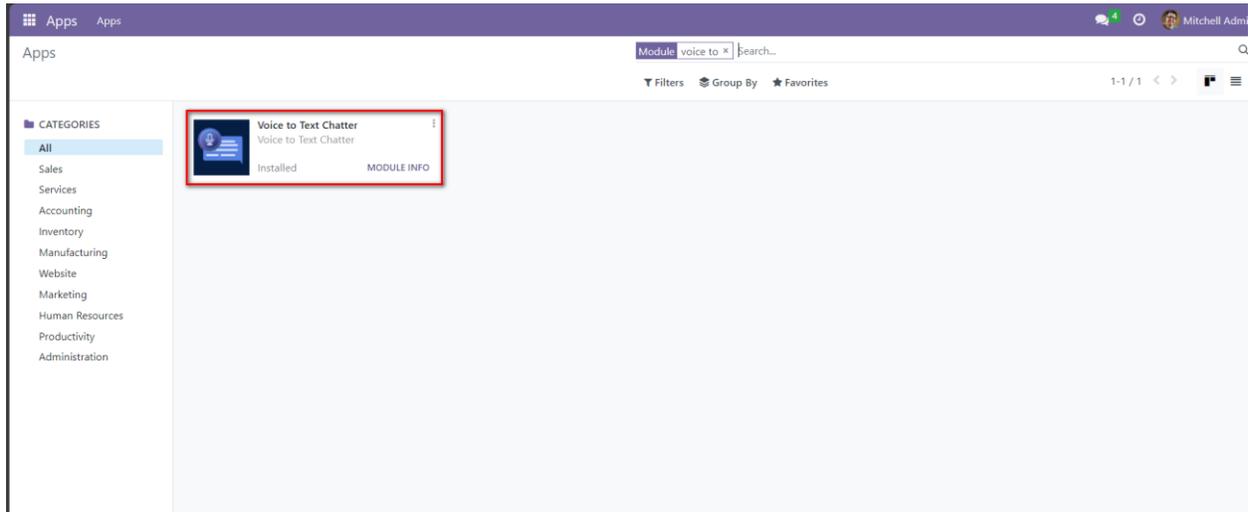

2. Features

- Voice-to-Text conversion.
- Accurate messaging.
- Effortless chatting.
- Enhanced communication speed.
- User-friendly interface.
- Convenient communication between Odoo internal users.
- Multi-website compatible.

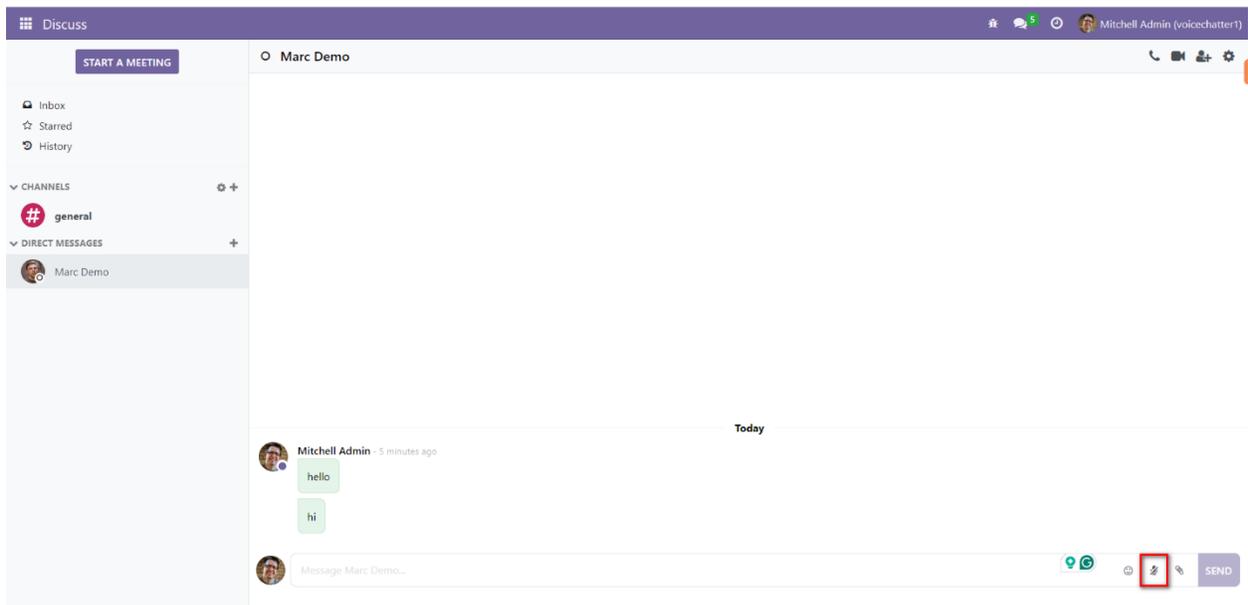

3. Working

To initiate communication on your Odoo store using voice, follow these steps:

- Install the Voice to Text Chatter module.

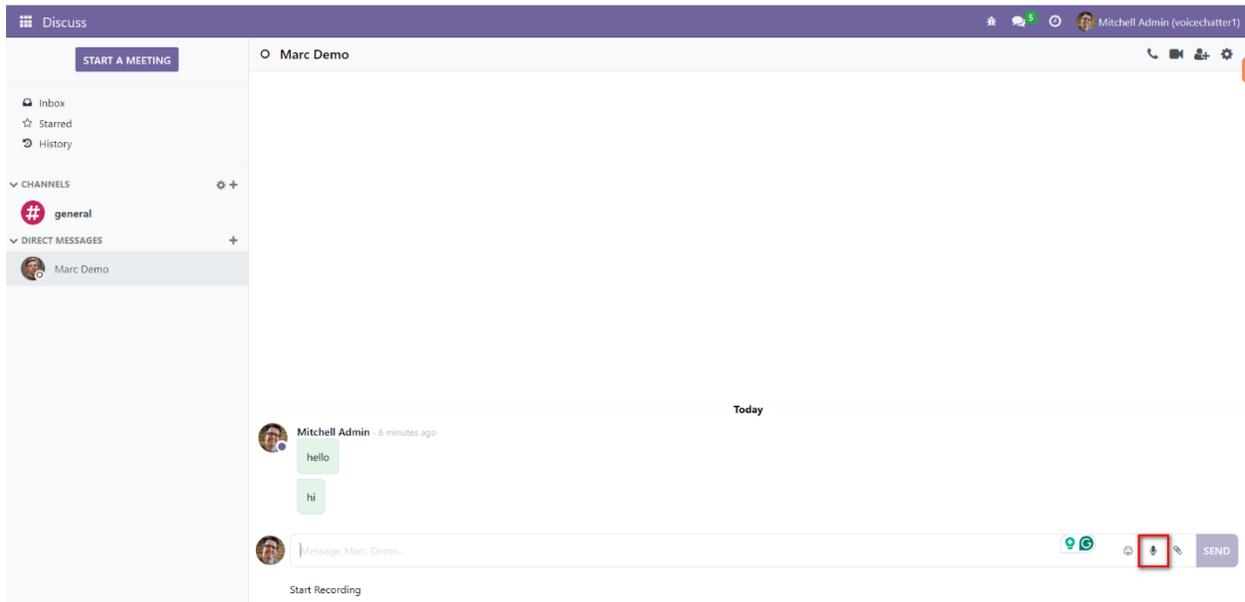

- Click on the Microphone button located in the message box.

- Speak the message you want to convey.
- After speaking the message, say "GO" and the message will be delivered or in 5 seconds it will be automatically delivered.
- If you don't want that message, just say "RESET" and the message will be deleted.

- If you want to stop recording, just say "STOP RECORDING" or click on the microphone button again and the recording will be stopped.

4. Technical Requirements / Compatible With:

- Odoo version 15.

5. Supported Languages:

- Voice input will be converted to text in English language only.

6. Limitations

- Supported only in Web Speech API-enabled browsers (For example Google Chrome, Safari, etc). Most browsers allow mic permission to only https-enabled

sites.
