

# Rental Subscription Extension with additional support for wallee Gateway for Magento 2

## 1. Pre-requisites

Magento 2.3.1 and higher versions.

wallee module should be compatible with the Magento.

## Installation

To install the module, follow the steps below.

Step 1: Download the module/extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into app/code/Pits directory.

Step 3: Run the following commands to complete the installation.

1. Enable the module - `php bin/magento module:enable`
2. Update of the database - `php bin/magento setup:upgrade`
3. Generate and pre-compile classes - `php bin/magento setup:di:compile`

Deploy static files - `php bin/magento setup:static-content:deploy`

## 2. Rental Subscription Extension with additional support for wallee Gateway for Magento2

Rental Subscription Extension with additional support for wallee Gateway is a Magento 2 extension developed by PIT solutions. It enables businesses to offer flexible rental subscription services for products. With this extension, businesses can set a minimum duration for product rentals, typically measured in days, ensuring customers can enjoy the rental service for a specific period. Additionally, the extension integrates with wallee payment gateway to automate monthly fee deductions after the order is placed, streamlining the payment process. This comprehensive solution simplifies the rental subscription workflow, providing a seamless experience for businesses and customers alike.

### 3. Features

- Flexible rental subscription services with customizable durations.
- Integration with wallee payment gateway for automated monthly fee deductions.
- Separate rental pricing for each product, allowing for unique rates.
- Option for customers to cancel full subscriptions or individual items.
- Top rental products slider to showcase popular and featured items on the product view page and category page.
- Separate list for subscription orders & cancel rental subscriptions directly in the admin panel.
- Easily view and manage rental subscription orders separately from regular orders.
- Access detailed information about rental subscriptions, including duration and pricing.
- Automated notifications for new subscriptions, cancellations, payment reminders, and payment success.
- Only registered customers are allowed to place orders for rental items in their shopping cart.
- Shopping cart discount allowed for rental products.
- Customers can change the payment method to wallee or offline methods.
- Customers have the capability to place orders with multiple shipping addresses for rental products.
- Admin receives detailed reports for subscription activities, including insightful information about the status of payments and pending dues. These reports are conveniently delivered via email and can also be accessed directly from the admin panel, ensuring efficient monitoring and management.
- Admins can set the maximum rental duration for specific products or the entire products catalog. This gives administrators control to customize rental durations based on product details or business policies.

## 4. Configuration

From the admin backend, go to Stores > Configuration>PITS Configuration > Rental Subscription.

The subscription report provides essential information about the subscription, such as the product details, transaction details, subscription status, and the start and end dates.

### Subscription Due Report

Reports->Sales-> Subscription Due Report

The screenshot shows a dark-themed navigation menu for a reporting system. The menu is organized into several categories: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. Under the REPORTS category, there are sub-items for Marketing, Sales, Customers, and Business Intelligence. The 'Sales' sub-item is further divided into: Products in Cart, Search Terms, Abandoned Carts, Newsletter Problem Reports, Reviews, By Customers, and By Products. The 'By Products' sub-item has a red box around it, and 'Subscription Due Reports' is listed as a sub-item under 'By Products'. Other sub-items under 'Sales' include Orders, Tax, Invoiced, Shipping, Refunds, Coupons, PayPal Settlement, Braintree Settlement, Subscription Reports, and Subscription Due Reports. Other sub-items under 'Customers' include Order Total, Order Count, New, Products, Views, Bestsellers, Low Stock, Ordered, Downloads, Statistics, and Refresh Statistics. The URL at the bottom of the browser window is localhost/rental/pub/admin\_dij60c/admin/.

ID	Subscription ID	Customer Name	Customer Email	Subscription Start Date	Subscription End Date	Status	Action

## Shipping address update

The screenshot shows a modal window titled "Address" with a close button (X) in the top right corner. The form contains the following fields:

- Name Prefix: A dropdown menu with "MR" selected.
- First Name: A text input field containing "Pits".
- Last Name: A text input field containing "Solution".
- Company: A text input field.
- Street Address: A two-line text input field with "Street1" in the first line.
- Country: A dropdown menu.

An "Update" button is located at the bottom right of the form.

## Payment details update

The screenshot shows a modal window titled "Payment Methods" with a close button (X) in the top right corner. The form contains the following elements:

- Select Payment Method: A dropdown menu with "Credit / Debit Card" selected.
- Warning: A yellow banner with a warning icon and the text "Dont delete the stored card details".
- Simulation: A section with a dropdown arrow, the text "Simulation", and a sub-text "You can use the test information to simulate payments." and a close button (X).
- Stored Cards: A section containing a card entry for "VISA XXXX XXXX XXXX 1111" with a "Delete" button, and a radio button option "Use Another Card".

An "Update" button is located at the bottom right of the form.

You can easily update both the shipping address and the payment address at any time before cancelling the subscription.

## Cancel Subscription Order

The screenshot shows a web interface with a sidebar on the left containing navigation links: My Wish List, Address Book, Account Information, Stored Payment Methods, My Product Reviews, Newsletter Subscriptions, My Subscriptions (highlighted), Compare Products, Recently Ordered, and My Wish List (1 item). The main content area is titled 'ORDER INFORMATION' and includes sections for Shipping, Payment Method, and a table of subscription items. A modal popup titled 'Cancel Subscription Item' is centered over the table, asking 'Are you sure you want to Cancel the Subscription Item?' with 'Cancel' and 'OK' buttons. The table below the popup has the following data:

Product Name	Expiry on / Remaining minimum term	Status	Price	Qty	Subtotal	Action
simple2 simple2	17.05.24 / 363 days	Pending	\$7.00	1	\$7.00	unsubscribe
					Subtotal	\$7.00
					Tax	\$0.00
					Grand Total	\$7.00

If you click the cancel button, a popup will appear asking for confirmation to cancel the item. Once the minimum duration is completed, clicking the cancel button will open the cancel confirmation box, allowing you to proceed with cancelling the subscription.

## Top Rental Products Slider

The screenshot shows a customer account page with a 'My Account' menu on the left. The main content area includes sections for 'My Product Reviews', 'Newsletter Subscriptions', 'My Subscriptions', 'Compare Products', 'Recently Ordered', 'My Wish List', and 'Top Rental Products'. The 'Top Rental Products' section features a slider with a single placeholder image labeled 'Tests'.

On the product view and customer "My Account" pages, the top sales rental products can be displayed in a sliding format. The number of products shown is determined by the limit set by the admin in the configuration.

## 7. Important Notes

- Install Pits\_wallee Payment addon module only if wallee Payment extension is already installed in your project. Because we are using wallee Payment extension class inside our addon module.
- Extension supports only Cart Price Rule discounts and does not offer support for Catalog Price Rules.
- Extension does not support virtual and downloadable products.
- While creating multiple child orders through cron job, there is an issue with the status of the orders generated. This is due to the issue with the response from wallee side. For these orders, admin needs to mark the orders as complete.

## 8. Technical Requirements / Compatible with:

Magento Open Source 2.3.1 and higher versions.

## 9. Supported Languages

English, German, French, Spanish and Italian.

## 10. Change Log / Release Notes

Version: 1.0.0: 22 Jan,2024

Initial release.

## 11. Support
