1. Introduction

The Electroshop Theme is a premium, modern Odoo website theme tailored for electronics, gadgets, and tech retailers. It delivers a clean, product-focused layout with strong visuals, bold category sections, and conversion-friendly eCommerce components.

Built with the flexibility of Odoo Website Builder, this theme allows you to easily customize layouts, manage product collections, and showcase your products with high-quality visuals and detailed descriptions.

2. Features

- **Responsive Design:** Fully responsive layouts that adapt seamlessly to all screen sizes and devices, ensuring a consistent and smooth experience on desktop, tablet, and mobile.
- **E-Commerce Ready:** Optimized for Odoo’s eCommerce framework with dedicated product showcase layouts, quick view pop-ups, and smooth cart integration for a refined shopping experience.
- **Custom Components:** Pre-built, reusable sections to build your homepage quickly: – easy to drag, drop, and customize.
- **Product Grid Template:** Includes a “Top Selling Products” dynamic product grid with Wishlist, ratings, and add-to-cart controls.
- **Mega Menu:** Custom mega menu layout for large product category navigation.
- **Pre-built Pages:**

Ready-to-use pages for:

- About Us
- Contact Us
- FAQ
- Terms & Conditions

- **Easy Customization:** User-friendly editor support to modify colors, typography, and layout effortlessly, allowing you to create a unique brand identity with minimal effort.

3. Install and Set Up the Theme

1. Log in to your Odoo instance.
2. Enable **Developer Mode**, then navigate to **Apps** and click on **Update Apps List**.
3. Go to **Website** → **Edit** → **Theme** → **Website** section, then click on **Switch Theme** and select **Theme Electroshop**.
4. The required dependency module, **Electroshop Theme Snippets** (`website_electroshop`), will be installed automatically during the theme activation process.

Pick a Theme

Don't worry, you can switch later.

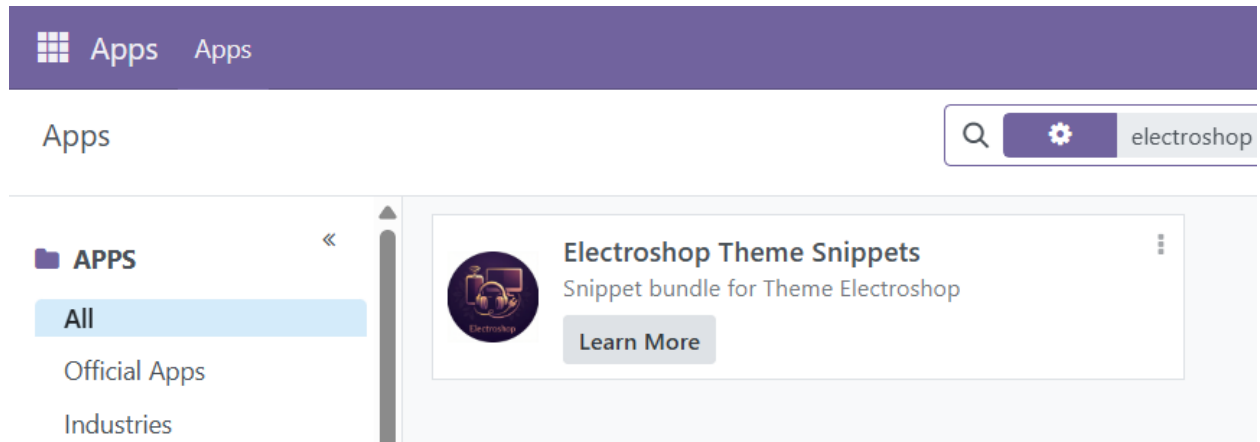

Figure 1.2 – Theme dependency module

4. Header Style

1. Go to **Website** → **Editor** → **Edit**, then click on the **Header** section.

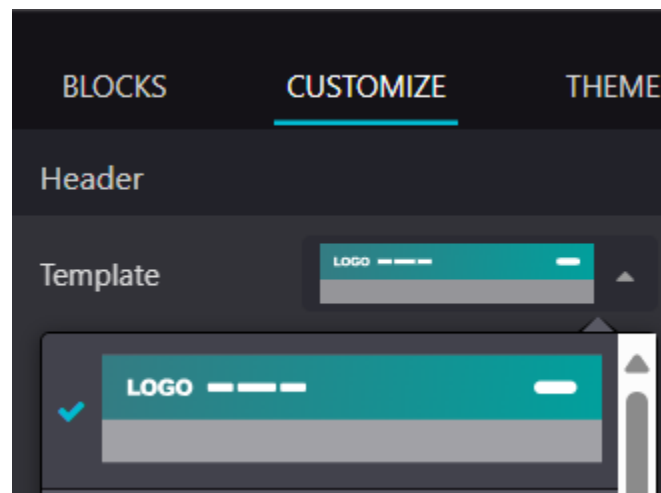

Figure 2.1- Header Template

2. Select the **Header Template** shown above.

Figure 2.2- Theme Electroshop Header

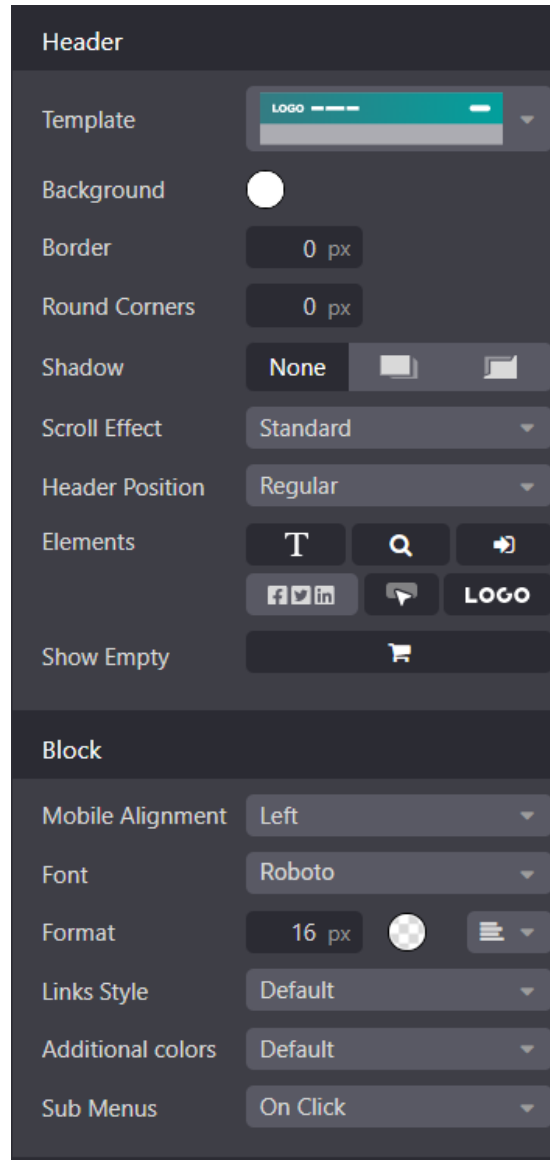

Figure 2.3- Header Customization

3. Choose the **Header Template**, **Placement**, and **Scroll Behavior**.
4. Customize the **Background**, **Border**, **Corners**, and **Shadow** effects.
5. Set the **Font Family**, **Font Size**, and **Link Styles** for the header text.
6. Adjust **Mobile Alignment** and **Submenu Behaviour** as needed.

5. Electroshop Mega Menu

- Go to **Website** → **Site** → **Menu Editor**, click **Add Mega Menu Item**, and fill out the popup form to create the menu.

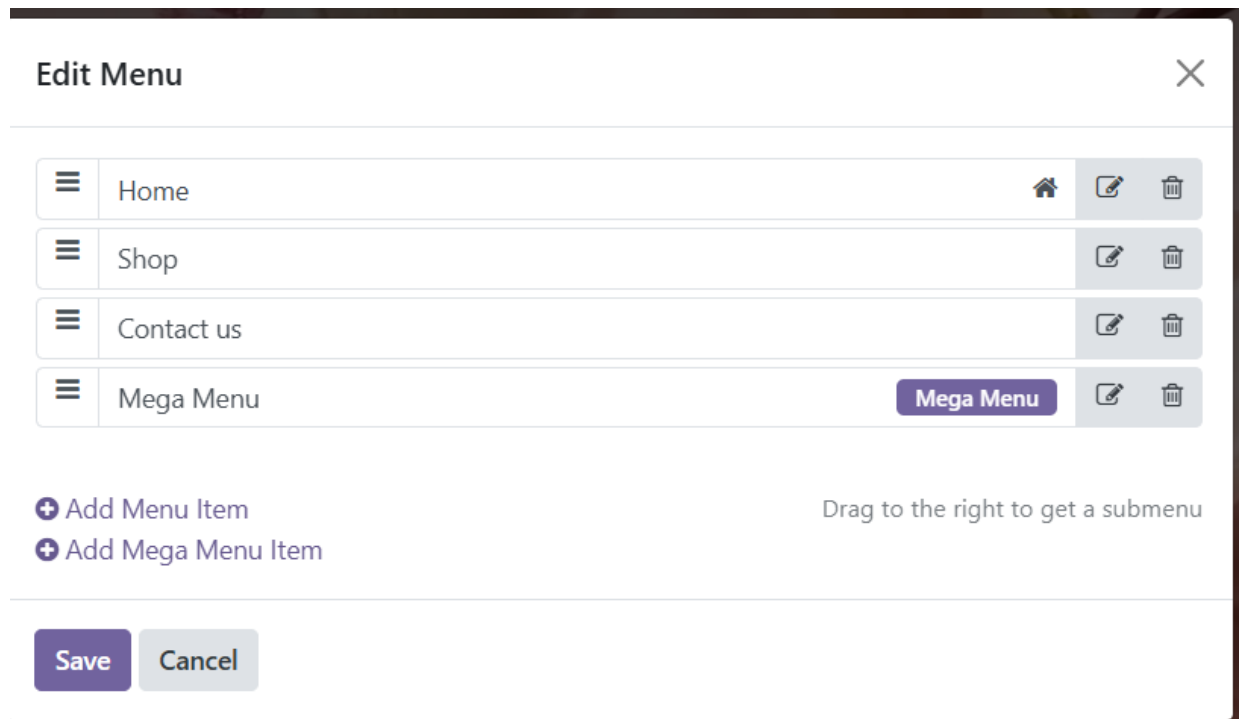

Figure 3.1 – Create Mega Menu

- Open the default Mega Menu on your website.
- Click Edit in the website editor.
- Click the Mega Menu area to open its options.
- In Template, choose “Electroshop Menu” and save.

Notes:

- *Background videos in Odoo are rendered through iFrames, which limits direct control over their **height** and **scaling**. Videos smaller than their container may leave visible gaps, exposing the background image behind them. To ensure proper display, use videos that **match the container's aspect ratio**.*
- *Certain sliders are powered by **Splide.js** for smooth and interactive transitions. In the **Odoo Website Editor**, these sliders may initially appear without **navigation buttons, spacing, or sliding effects**, as the required JavaScript initializes only **after the first save**. Once the page is saved, all scripts load correctly, and the sliders display with proper **spacing, transitions, and functional controls**.*
- *In the editor, you can adjust each block's **height** (Auto, 50%, 100%) and **width** (Small, Regular, Full). However, altering these may affect the layout due to **minimum spacing requirements**. It is recommended to keep **height as Auto** and **width as Regular** for optimal alignment and appearance.*

6.1. Hero Slider Block

A large customizable hero slider for promotions and product campaigns.

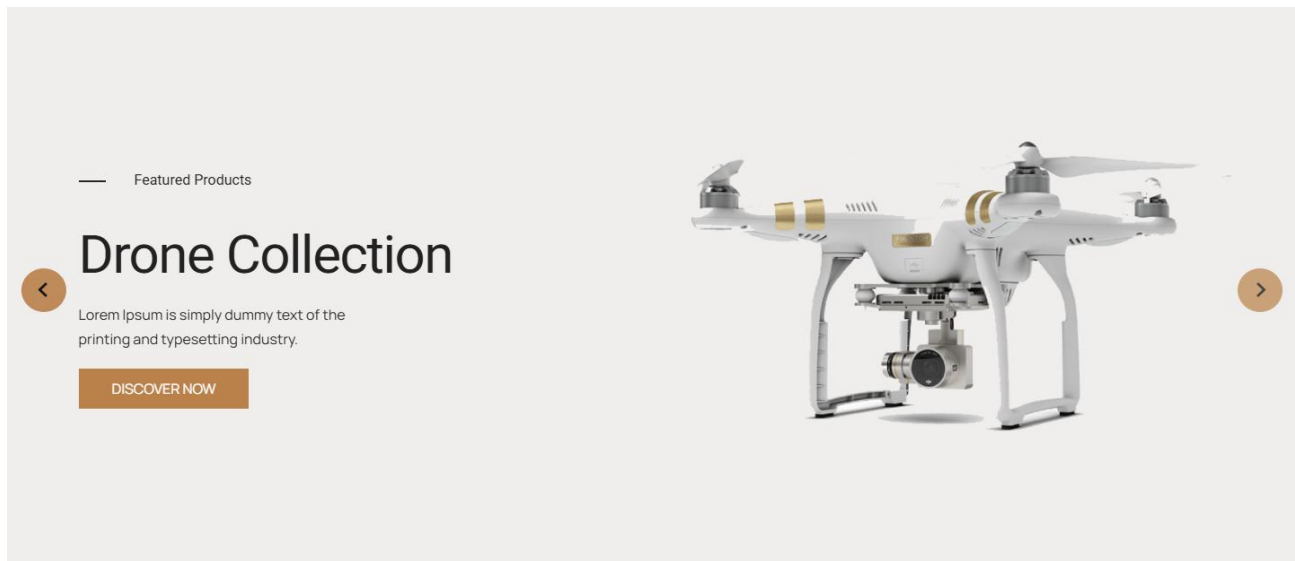

Figure 5.1 – Hero Slider

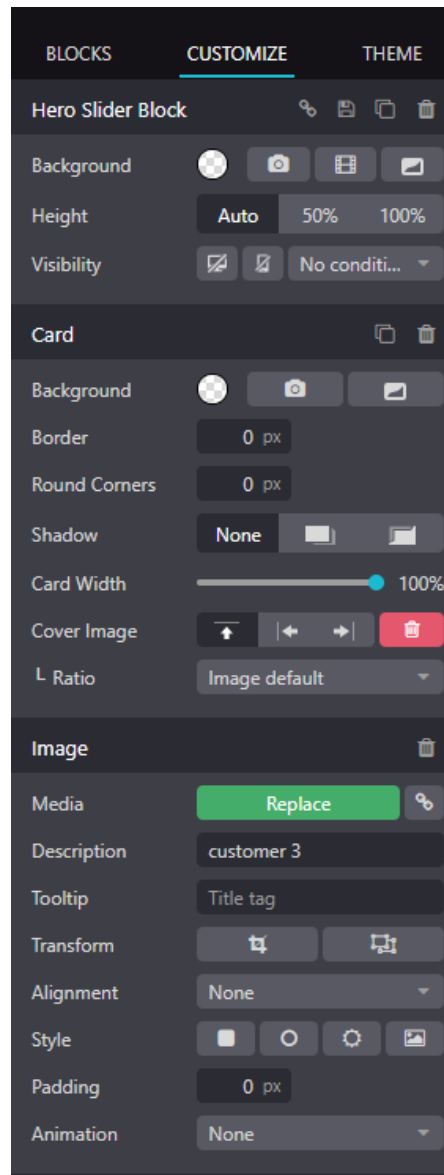

Figure 5.2 – Hero Slider Configuration

- Set a **background** using an **image or video** and apply **color filters** to adjust tone and overlay effects.
- **Replace** or **upload** new media and choose the **background position**.
- Control **banner visibility** by managing when and where it appears using **visibility conditions**.
- **Edit text** directly within the banner for quick customization.

- Add animation or highlight effects to create an engaging visual presentation.

6.2. Category Tiles Block

Figure 6.1 – Category Tiles Block

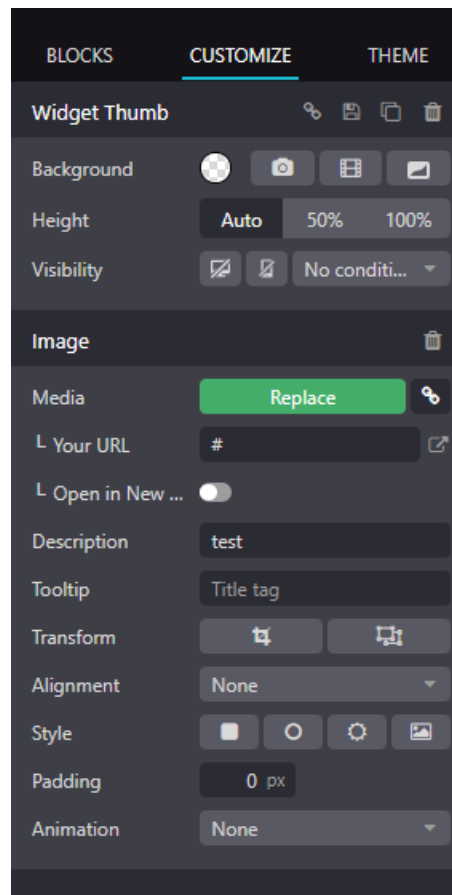

Figure 6.2 – Category Tiles Configuration

- Click the Widget Thumb section → Edit.
- Replace tile images and update category names.
- Link each tile to the desired category or product page.

6.3. Featured Trending

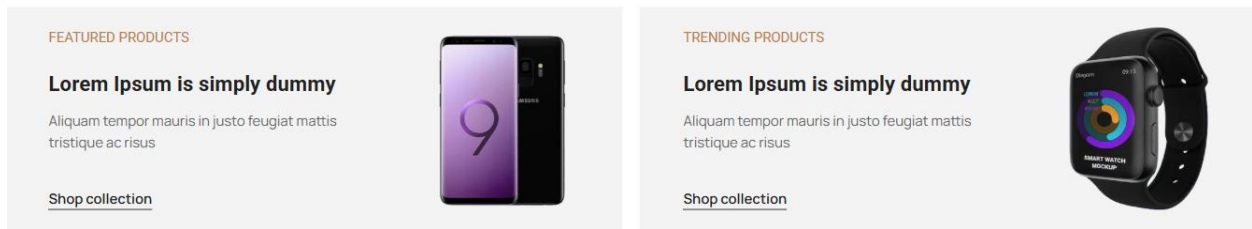

Figure 7.1 – Featured Trending

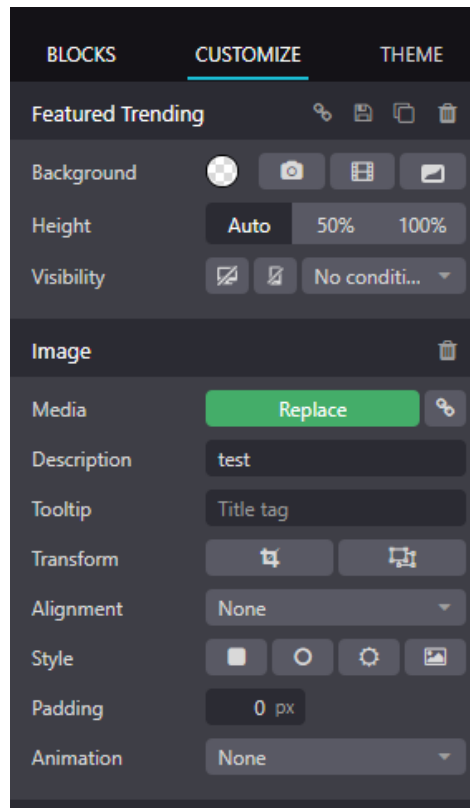

Figure 7.2 – Featured Trending Configuration

- Click the section → Edit.
- Replace images and update headings, descriptions, and links.
- Adjust spacing and background if needed.

6.4. Page Banner Block

- A flexible banner block with a default title and image. The title is set to “Title” by default, so users should update it based on the page purpose.

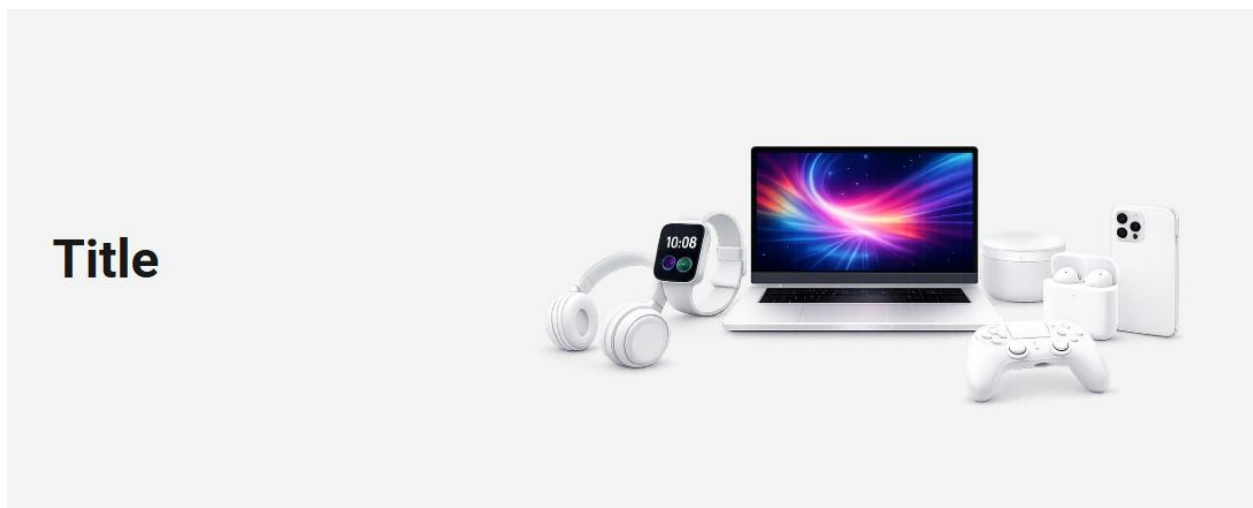

Figure 8.1 - Page Banner Block

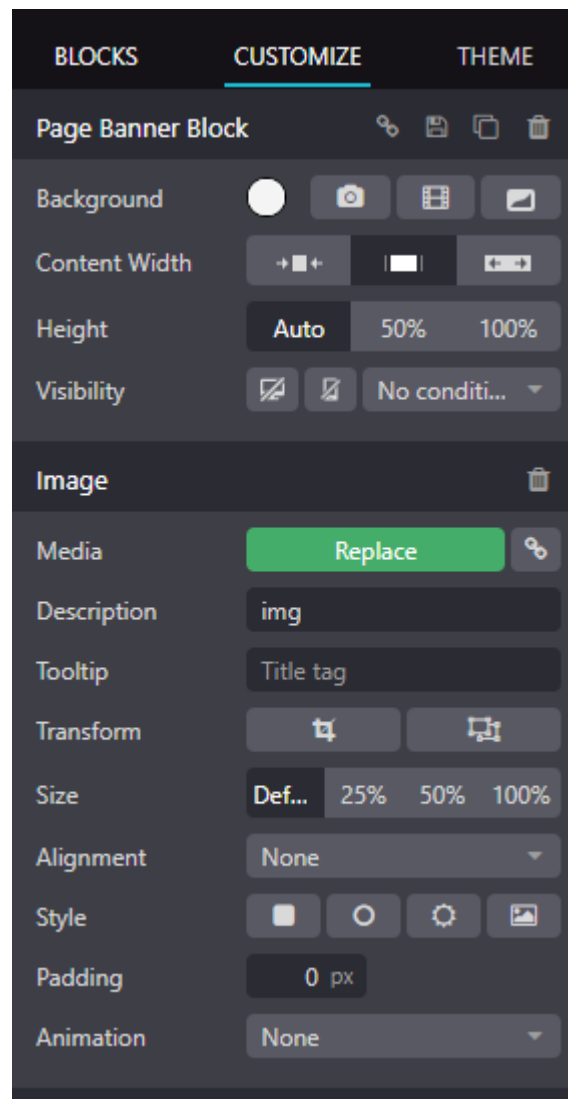

Figure 8.2 – Page Banner Block Configuration

- Click the banner → Edit.
- Replace the banner image.
- Edit the title text (default is “Title”) and align it as needed.

6.5. Key Services Block

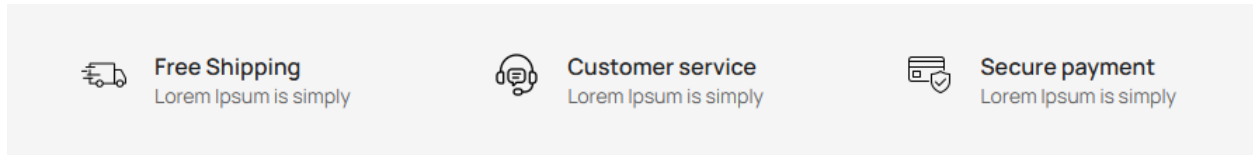

Figure 9.1 – Key Services Block

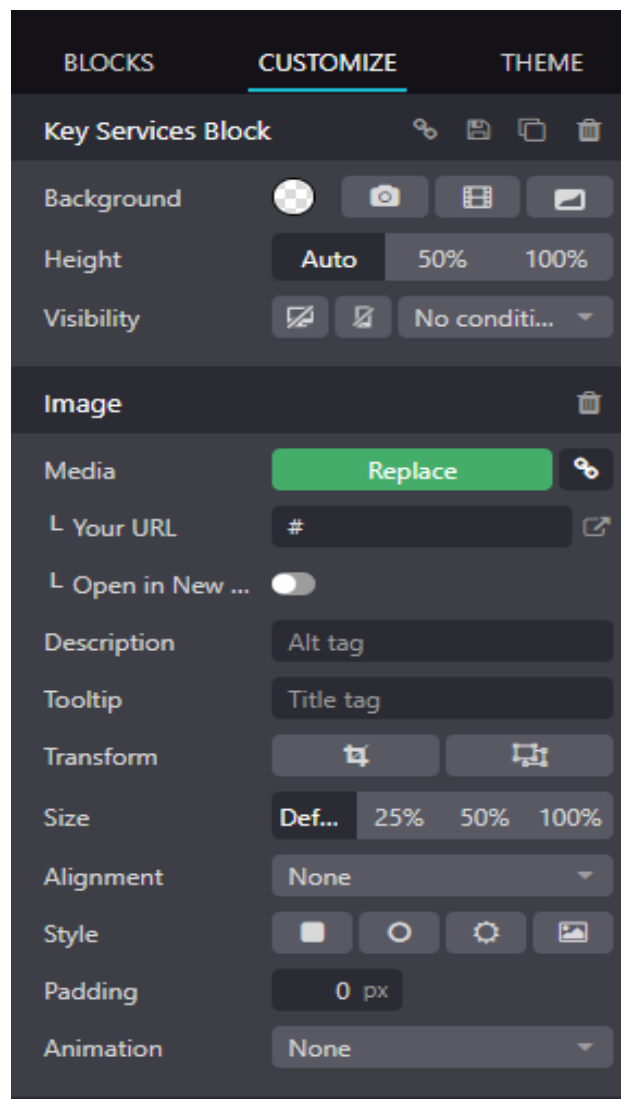

Figure 9.2 – Key Services Block Configuration

- Click the section → Edit.
- Replace each icon image.
- Update headings and short descriptions.

7. Product Template

1. Go to **Website** → **Site** → **Menu Editor**, then click **Blocks and Products**.
2. Select the **Product Snippet**.
3. Click on the snippet and choose **Customize** in the editor.
4. Click the **Template** option and change the desired template.

7.1. Electroshop Product Grid

- This is a dynamic product grid that uses the same core functionality as other dynamic slider templates, with ratings, Wishlist, and quick add-to-cart support.

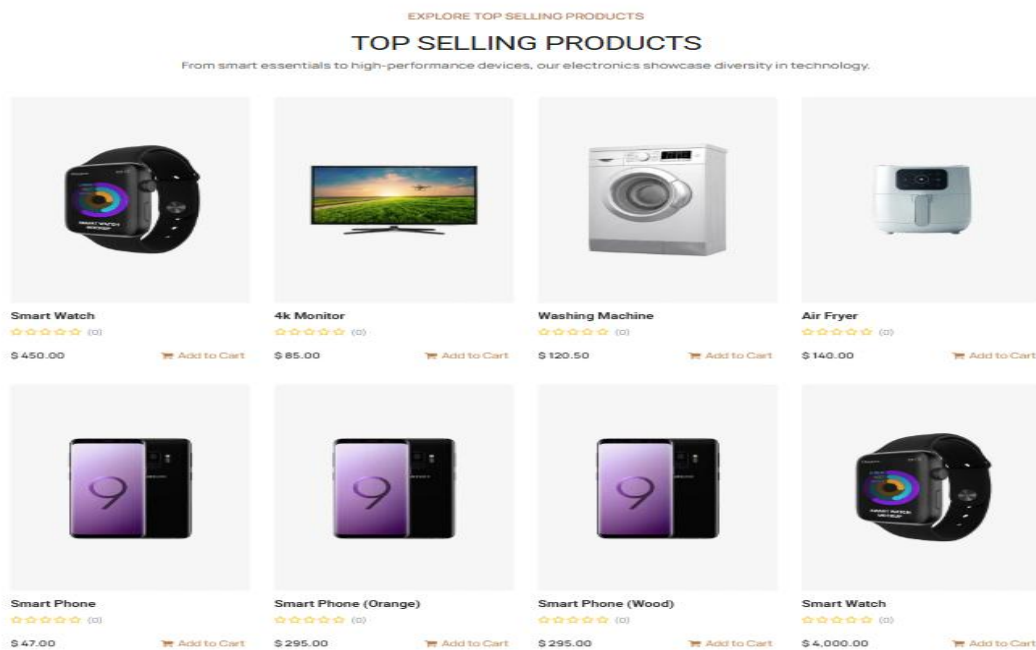

Figure 10.1 – Electroshop Product Grid

Figure 10.2 - Select Electroshop Grid Template

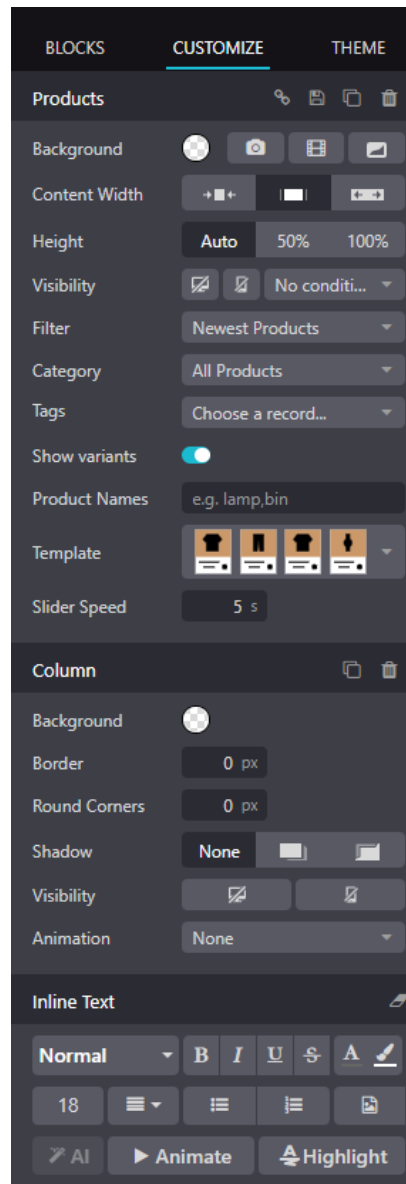

Figure 10.3 – Electroshop Grid Template Configuration

- Add product snippet to the page.
- Click the snippet → Edit.
- In Template, choose “Electroshop Product Grid” - the 1st one in the template list.
- In Data Source, select the product filter or domain you want to display.
- Save the page to render the grid correctly.

8. Footer

- Go to **Website** → **Editor** → **Edit**, click on the **Footer** section, and select a **Footer Template** from the dropdown menu.

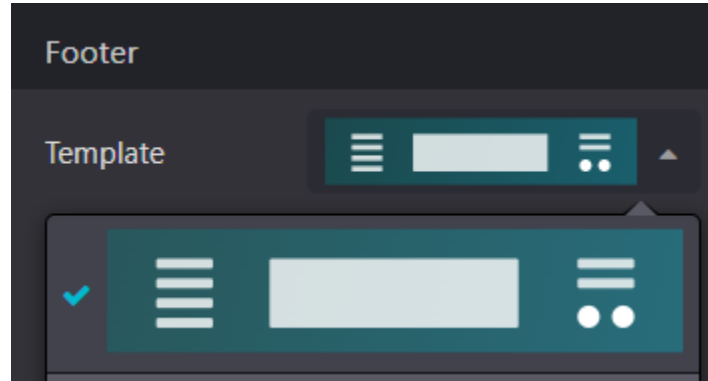

Figure 11.1- Electroshop Footer Template

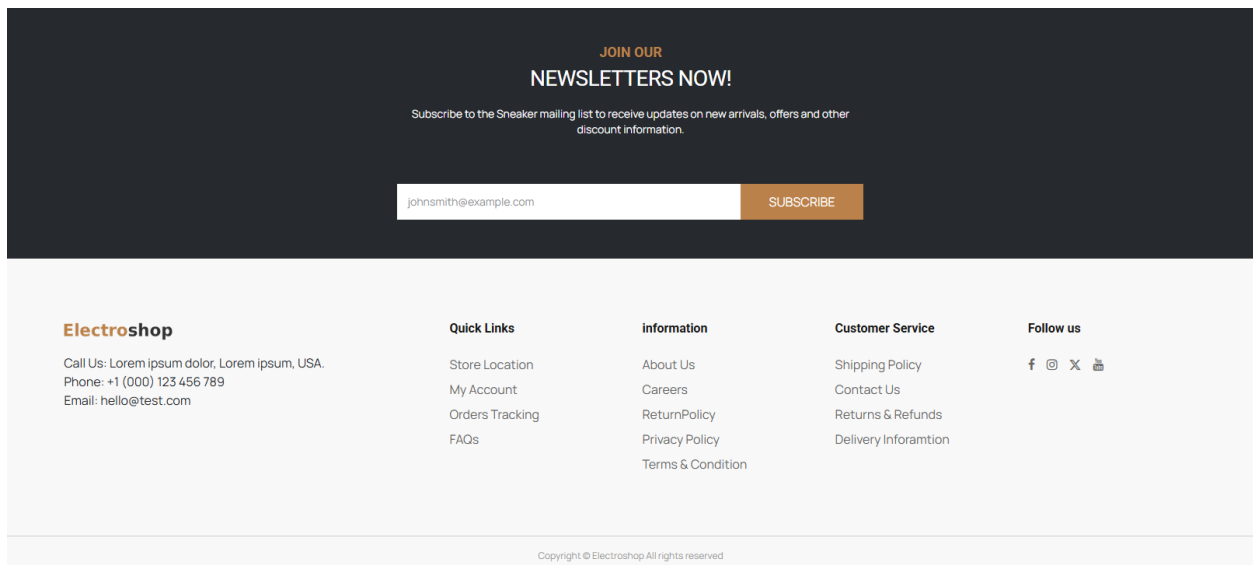

Figure 11.2 - Electroshop Footer

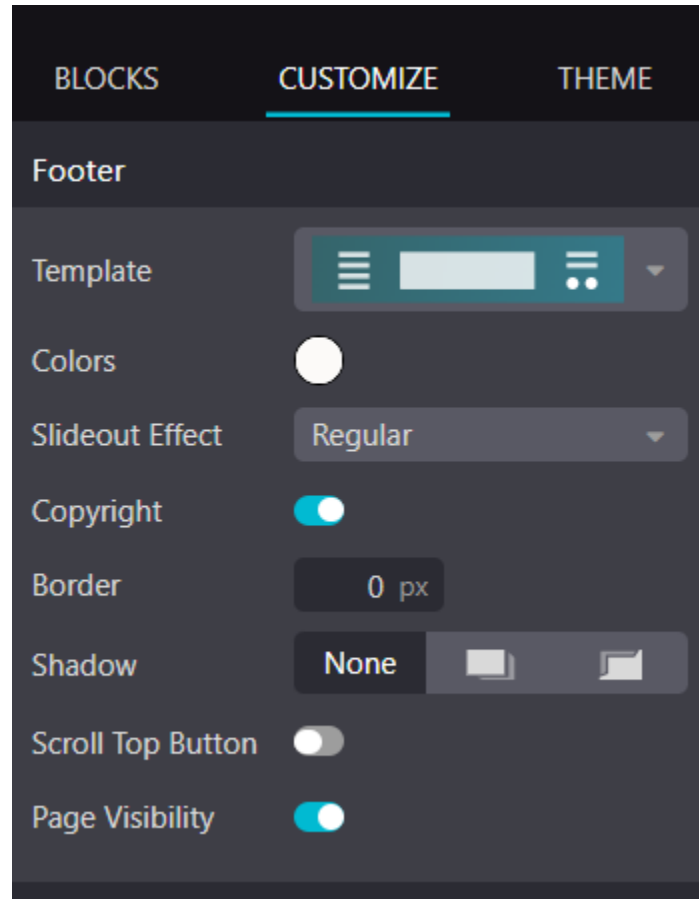

Figure 11.3 – Footer Configuration

- Adjust the **footer background** and **text colors**.
- Toggle the option to **show or hide copyright text**.
- Modify the **border width** as needed.
- Choose a **shadow style** for visual depth.
- Enable or disable the “**Back to Top**” button for page navigation.
- Configure the footer to **show or hide** on specific pages.

9. Technical Requirements / Compatibility

- **Required Modules:** Odoo Website Module, Electroshop Theme Snippets Module
- **Supported Odoo Editions:** Community and Enterprise Editions (v18.0)
- **Supported Platforms:** iOS 15 and above

10. Change Log / Release Notes
