

Customer Specific Shipping Restriction for Magento 2

1. Product Specification

Customer Specific Shipping Restriction is a Magento 2 extension developed by PIT Solutions which helps admin users to show or hide shipping methods for certain customer groups in frontend.

Features

- Admin can show or hide shipping method according to customer group.
- Shipping methods and customer groups are shown in a single page for easy access.
- Only enabled shipping methods shows in the backend configuration shipping method list.
- Admin has "allow" and "deny" options.
- Admin can restrict shipping methods for each website.

2. Screenshots / Video

2.1 General Configuration

Navigate to *Admin -> Stores -> Configuration -> Pits Configuration -> Shipping Restriction by Customer Group*.

The screenshot shows the Magento 2 Admin Configuration interface. At the top, there's a search bar and a user profile icon labeled 'admin'. Below this, the 'Configuration' title is visible. The main content area has a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button. On the left sidebar, the 'GENERAL' section is expanded, showing 'PITS CONFIGURATION' and 'Shipping Restriction By Customer Group'. The 'PITS CONFIGURATION' section is active, displaying a 'Enabled' dropdown menu with 'Yes' selected. The 'Shipping Restriction By Customer Group' section is partially visible below it.

Enabled: To enable the extension select "Yes".

2.2 Shipping Method Configurations

Can access Customer Specific Shipping Restriction from Stores > PITS Configuration > Shipping Methods by Customer Group

Shipping Methods By Customer Group

Scopes

Websites: Main Website, Main Website, website 2

Shipping Methods

Allow/Deny: Allow

Flat Rate: NOT LOGGED IN, General, Retailer, Wholesale

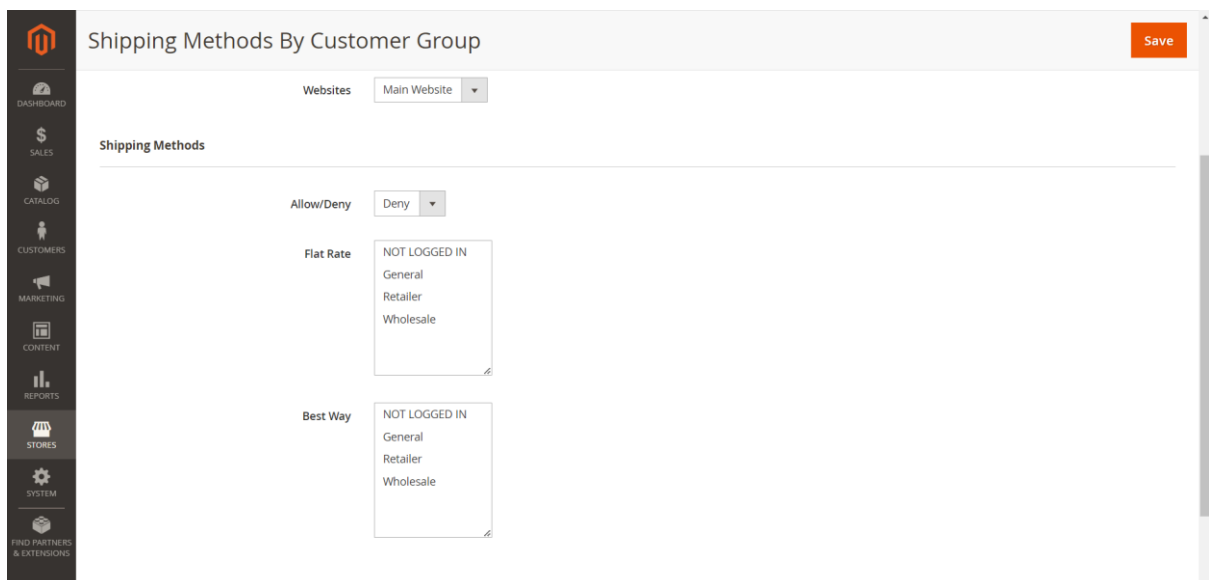

Available websites are listed in dropdown “Websites”.

The dropdown “Allow/Deny” provides the option to Allow or Deny each shipping method for customer groups.

Enabled shipping methods are listed, and all available customer groups are listed against each shipping method.

Use case 1 : “Allow/Deny” drop-down is selected with “Deny”. None of the shipping methods are denied

Go to Stores > PITS Configuration > Shipping Methods By Customer Group

If “Allow/Deny” drop-down is selected with “Deny”, then that particular shipping method will not be displayed in checkout for the selected customer groups. None of the shipping methods are denied here since no customer group selected in the above configuration.

A screenshot of a checkout form. At the top is a red square logo with the word 'pits' in white. Below the logo are several input fields: a text field for 'State/Province' with a dropdown arrow, a text field for 'City', a text field for 'Zip/Postal Code', and a text field for 'Phone Number' with a help icon. Below these fields is a section titled 'Shipping Methods'. It contains two rows of radio buttons and labels. The first row has a radio button next to '\$5.00', a label 'Fixed', and a label 'Flat Rate'. The second row has a radio button next to '\$15.00', a label 'Table Rate', and a label 'Best Way'. At the bottom right of the form is a blue button labeled 'Next'. At the very bottom of the page is a small copyright notice: 'Copyright © 2013-present Magento, Inc. All rights reserved.'

So, all shipping methods are displayed in checkout.

Use case 2 : “Allow/Deny” drop-down is selected with “Deny”.
