

Gift Wrap Extension

Product specification

Gift Wrap is an extension for Magento 2 developed by PIT Solutions that helps shop owners present the option of gift wrapping to their customers.

The extension is a significant convenience for customers with hectic schedules, enabling them to give special holiday gifts with just a click. The plugin allows customers to wrap either a single product or all the products in the cart. Customers can also attach heartwarming gift messages to their presents.

For last-minute decision-makers, the plugin can wrap their products on the cart page or the checkout page. Customers can choose the gift wrap option and have their shopped items delivered gift-wrapped with custom messages to their friends and family.

Gift Wrap Extension is a helpful extension that adds convenience and personalization to online shopping experiences. In addition, the Gift Wrap Extension offers peace of mind for shoppers, as they know that their gifts will arrive wrapped and ready to go.
