Contact for Price

Product specification

Contact For Price is extension for Magento 2 developed by PIT solutions which supports e-commerce shop owners to manage the product price and Add To Cart button visibility. It pushes customers to contact the store as well as hide product price effectively.

Features

- Hide price and Add to Cart button for individual products.
- Hide price and Add to Cart button for products in a category.
- Replace product price with ‘Request for Price’ or ‘Call for Price’ button.
- Easy to manage price visibility.
- Can customize ‘Request for Price’ button label.
- Pop-up price request form for customers.
- Enable/ Disable the extension.
- Directly communicate with store via email or telephone.
- Access control for admin users.
- Hyvä theme compatible

Installation

To install the Contact for Price Extension for Magento 2, follow the steps below.

1) Download the extension.

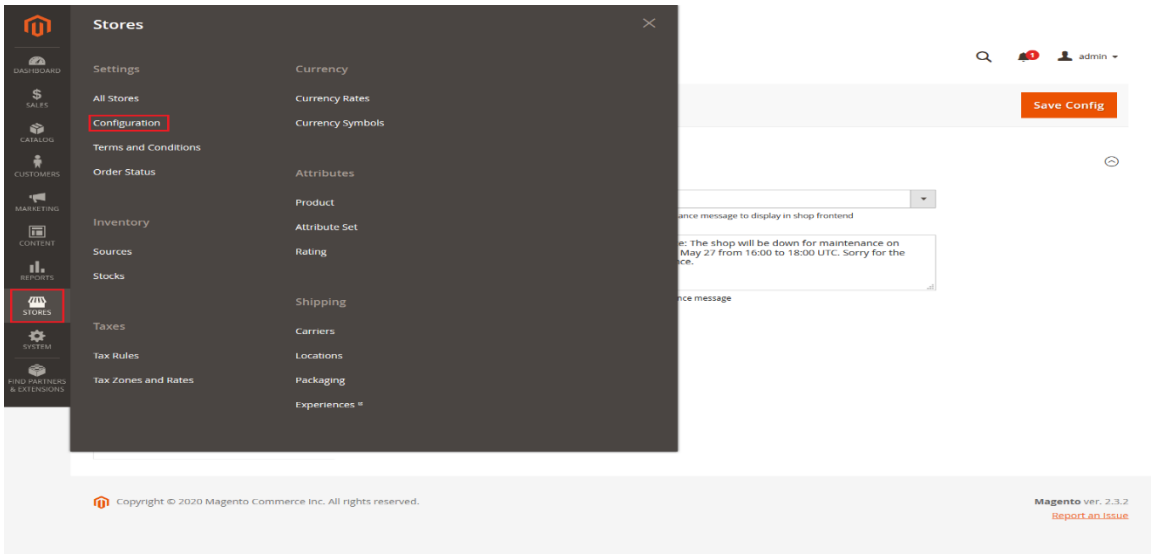
2) Access your web server directories and unzip and upload the content of the zip file to *app/code/Pits/ContactForPrice* directory.

3) Run the following commands from the SSH terminal of the server to complete the installation.

- Enable the module - *php bin/magento module:enable Pits_ContactForPrice*
- Update the database schema - *php bin/magento setup:upgrade*
- Generate and pre-compile classes - *php bin/magento setup:di:compile*
- Deploy static files - *php bin/magento setup:static-content:deploy*
- Clear the cache – *php bin/magento cache:flush*

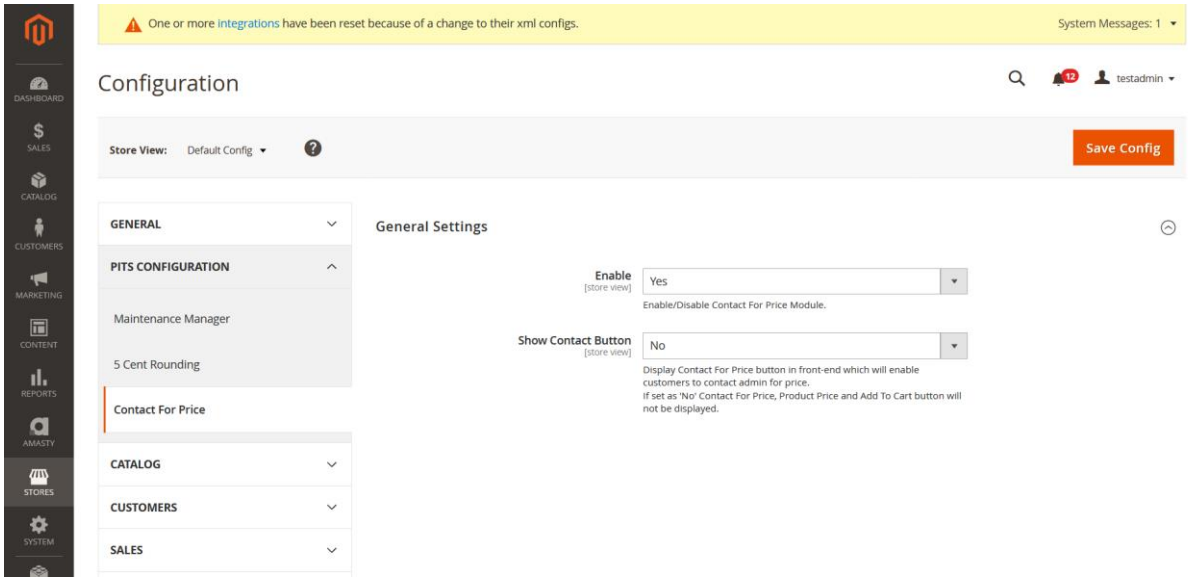
Configuration

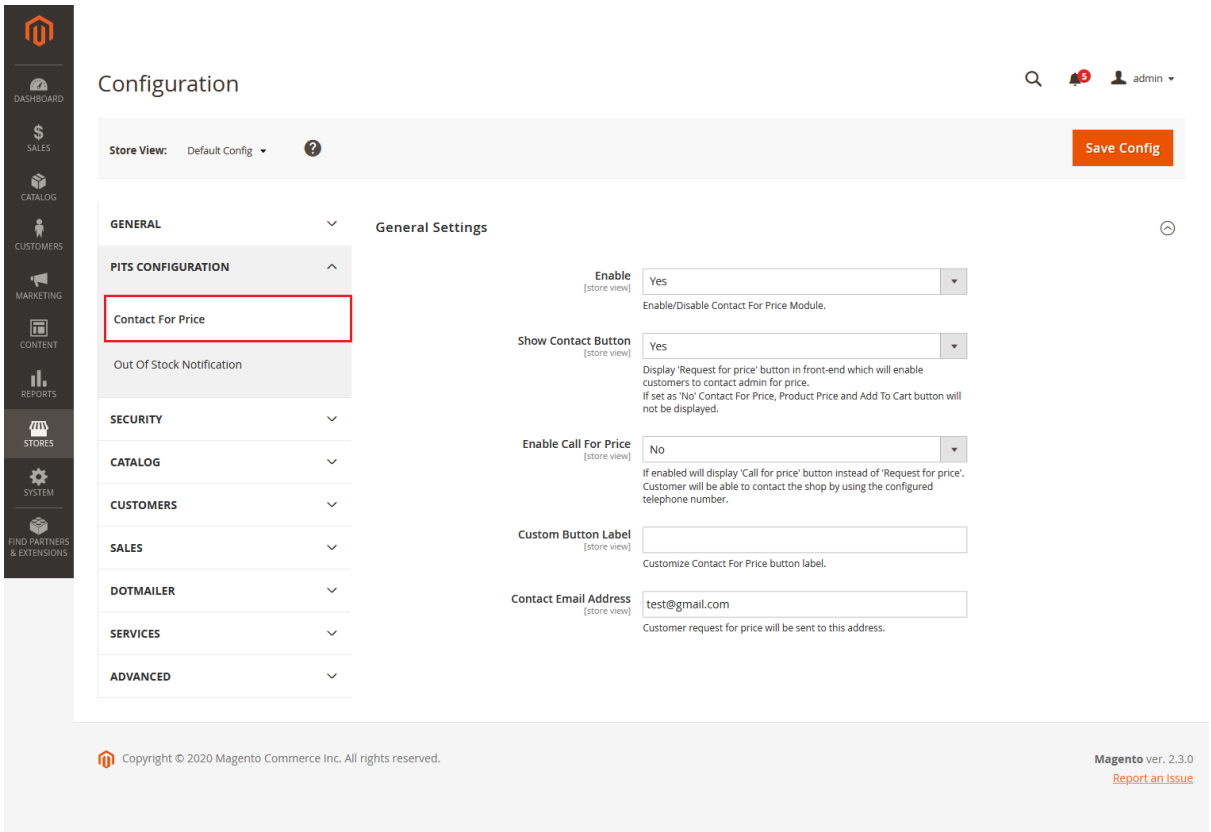
From the admin backend, go to ***Stores*** > ***PITS Configuration*** > ***Contact For Price***



Configure Contact for Price

- Enable the module.
  1. Select **Yes** in the Enable dropdown option.





2. Keep **Show Contact Button** option as **No** if you don't want to show **Request for price** button for the product.

3. Select **Show Contact Button** option as **Yes** if you want to hide price and Add to Cart button of product and display **Request for price** button in place of product price in the frontend. Clicking this button will open a pop-up where customer can submit request for a specific products price.

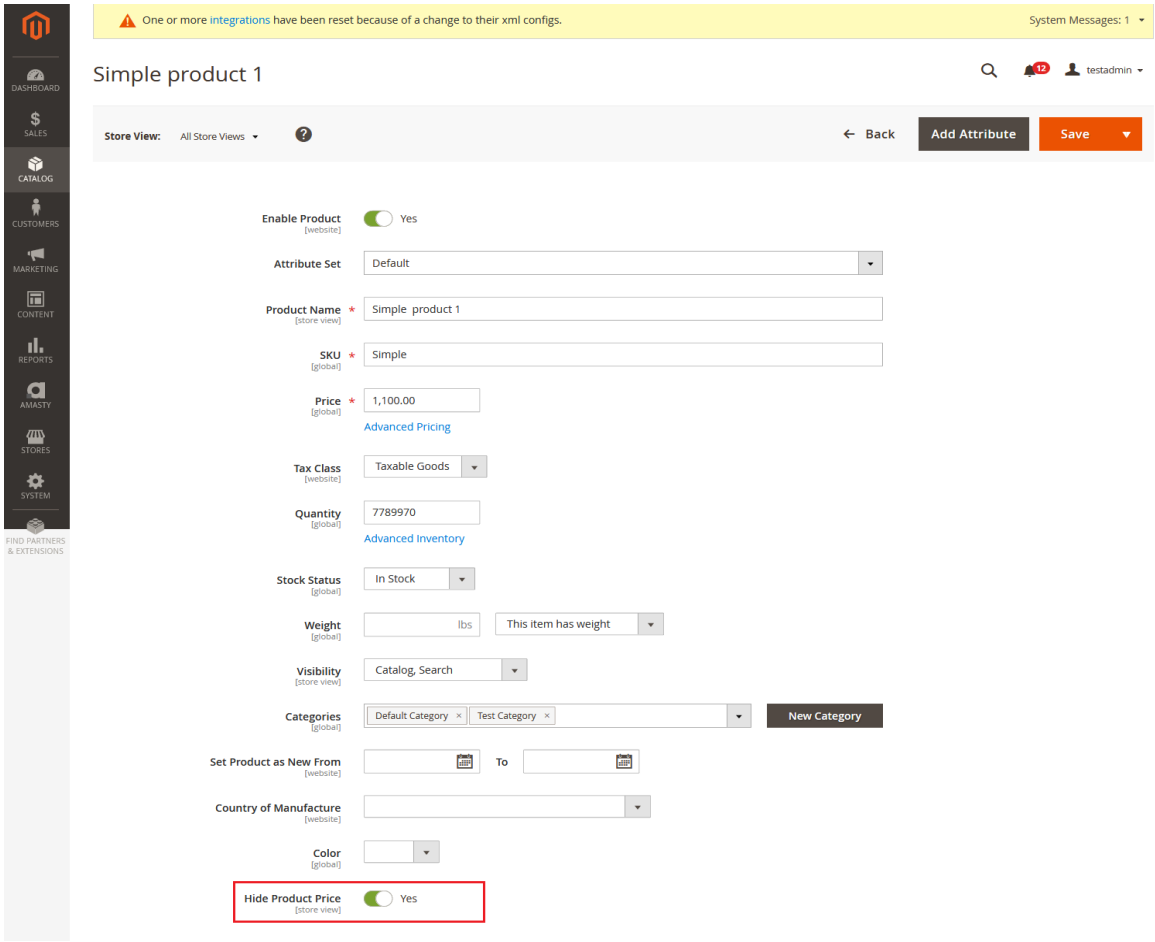
4. Select **Enable Call for Price** option as **Yes** if you want to enable customers with option to call shop directly via telephone. If the option is enabled '**Call for price'** button will be displayed instead of '**Request for price**' button. On clicking the button telephone application will be opened in the customer's device with Admin's telephone number in it. You can specify the telephone number in the **Telephone Number** field.

6. You can change the **Request for price/Call for price** button label by entering new label in the **Custom Button Label** field.

7. Please enter the email address in the field **Contact Email Address** to where you want to get the request from customers for price.

8. Click **Save Config** and clear the cache. That's it.

To hide price and Add to Cart for a specific product set **Hide Product Price** to **Yes** by editing the product.



The product will be displayed like below in frontend.

Fig: In Hyvä theme

User can contact the store by submitting the pop-up form appearing on clicking the Request for price button. The request will be sent as email to the email address set in the **Contact Email Address** field in the admin configuration.

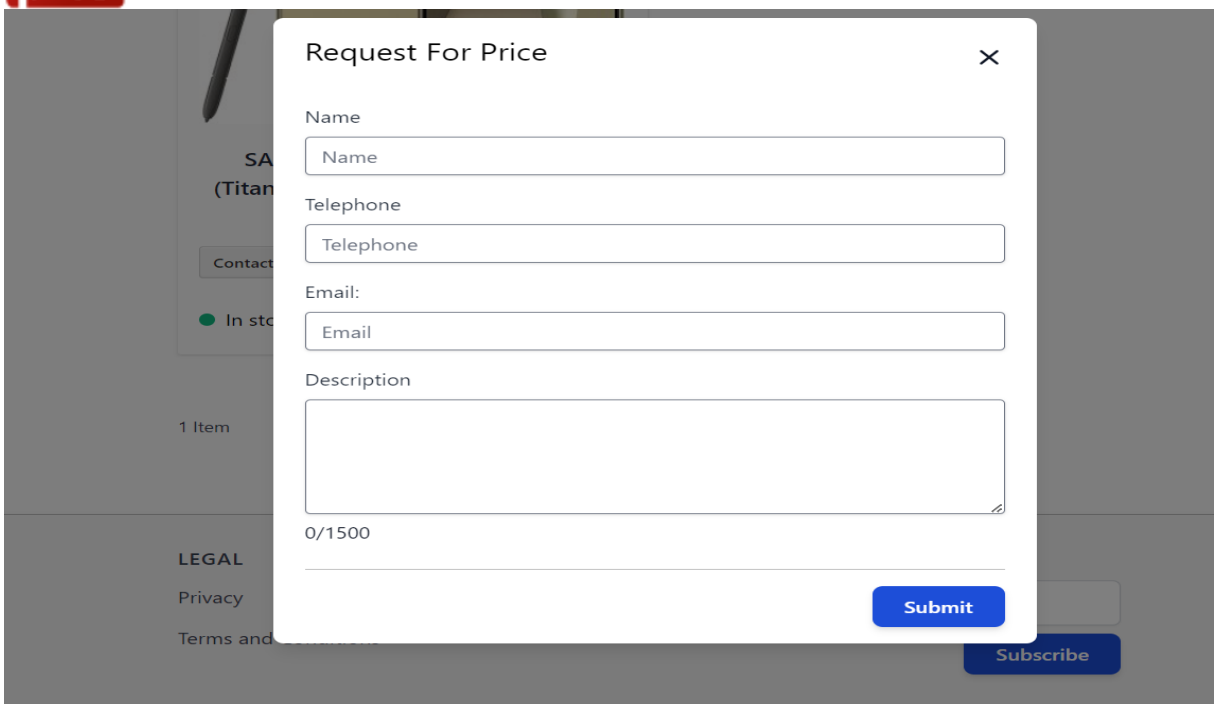

Fig: In Hyvä theme

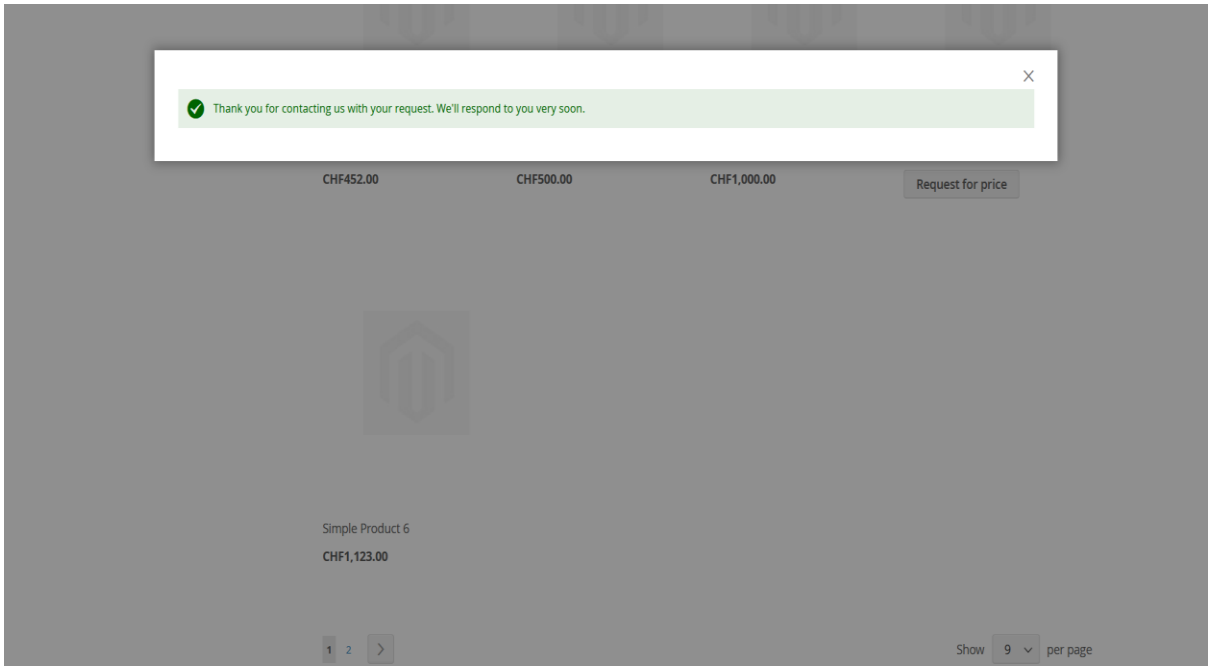
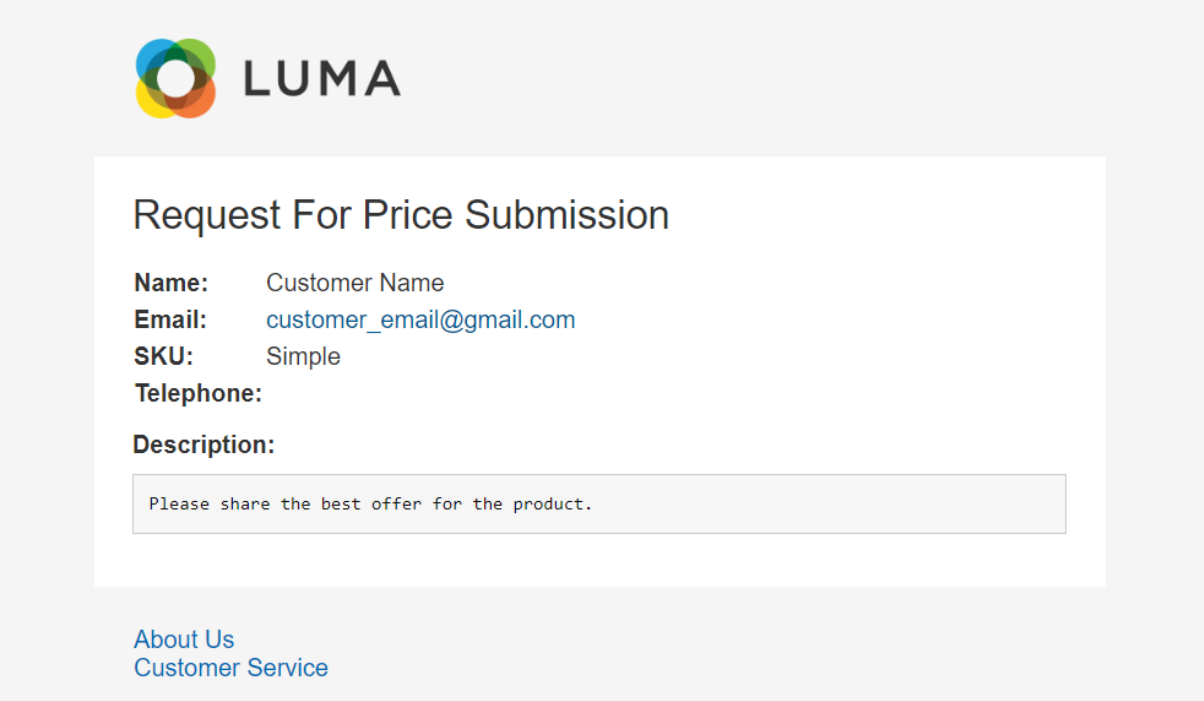


Email will be as below.



Note:

In case of Bundle products, "Hide Product Price" option should be enabled for parent products.

The email template depends on the theme being used in the shop and can be changed from backend by the admin user.

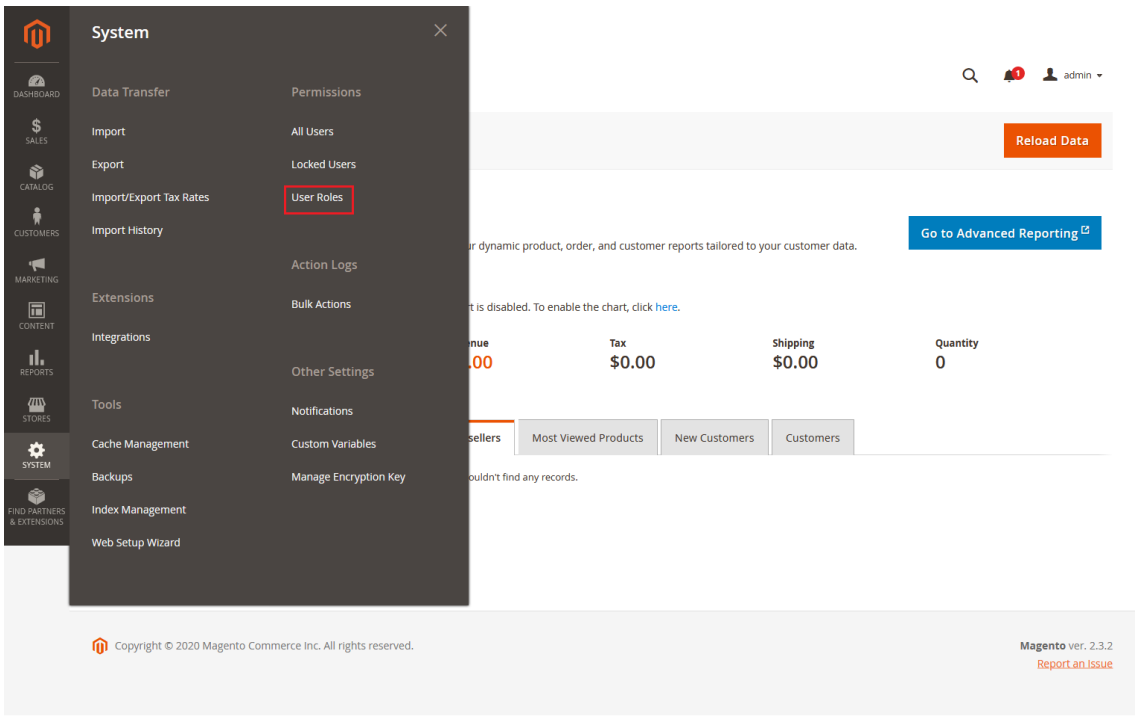
Please make sure to clear cache from backend ***System->Cache Management*** after making changes in backend configurations

Need to set the default Magento cron for the shop which uses the module. Otherwise, mails will not receive.

Products or categories with the 'Contact for Price' feature enabled cannot be added to the comparison list.

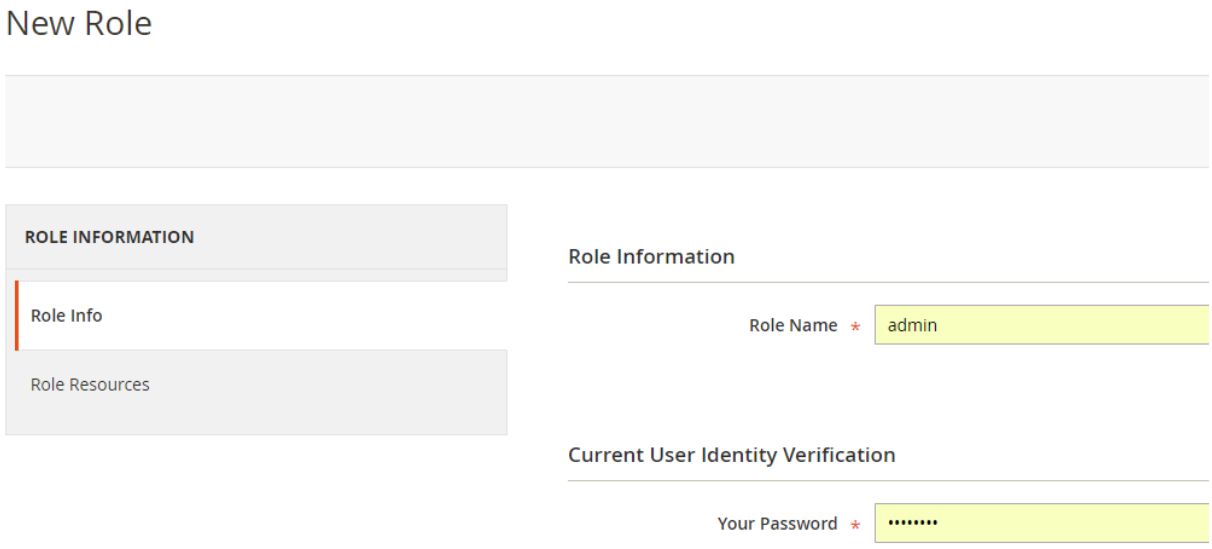
Manage User Role

Step 1: Navigate to ***Admin*** > ***System*** > ***User Roles***

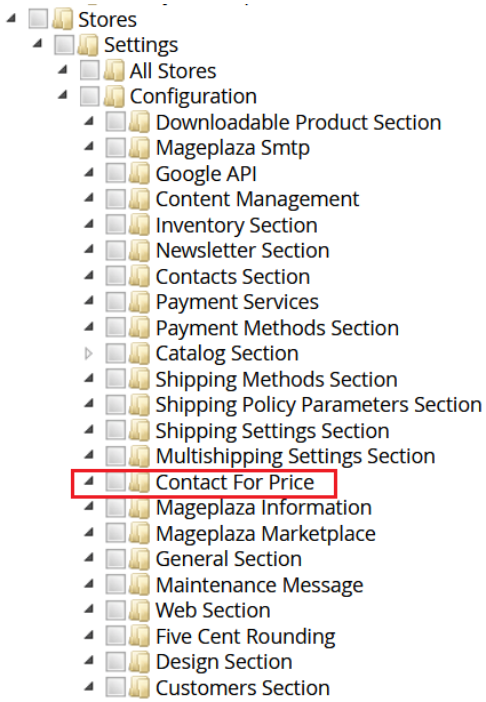


Step 2: Add a new role resource

Fill in the role information section.



Select **Contact For Price** role at Role Resources section.



Step 3: Set role users for admin accounts, thin click on **Save Role** to finish.
