

ChatGPT AI Content Generator for Shopware 6

ChatGPT AI Content Generator for Shopware 6 is an easy solution which generate content from Shopware backend with the help of OpenAI chatbot service.

1. Pre-requisites

Shopware 6.4.0.0 and higher versions

2.Installation

To install the module, follow the steps below.

Step 1: Download the module/extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into

custom/plugins/PitsAlContent directory.

Step 3: Run the following commands to complete the installation.

- 1. Install node (18.0.0) and npm (8.0.0) in your server (<u>https://nodejs.org/en/download/package-manager</u>).
- 2. Refresh plugin: php bin/console plugin:refresh
- 3. Activate plugin: php bin/console plugin:install --activate PitsAiContent
- 4. Build administration: php bin/build-administration.sh

OR

1. Upload the module zip via Adminstration->Extensions->My Extensions->Upload Extension and Install

2. Enable the feature using toggle button and save the configuration.

3. ChatGPT AI Content generator for Shopware6

ChatGPT AI content Generator for shopware6 is a shopware plugin developed by PIT solutions which is used to generate AI content for product description in administration product form, with the help of chatGPT by OpenAI.

4.Features

• The content will be generated when click on Generate Ai Content button.

- Easily connect OpenAI GPT3.5 turbo with Shopware6 using the API key.
- By default, content generation is based on the product's name. But you can change the input from ChatGPT pop-up or using configuration.
- Option to enable/disable the extension from administration.
- Option to set API key in the plugin configuration.
- Option to automatically set product field values in the content generation input.
- Input for the ChatGPT will be automatically generated based on the configuration

5. Configuration

Click on Generate AI Content with ChatGPT button to generate content.

The popup will display when clicking on the **Generate Al Content** button and content will generate automatically based on your product name by default. You can change this from plugin configuration.

If you wish to change the prompt, you can change the prompt text and generate with "Regenerate AI Content" button in the pop-up.

Finally, you can set AI content to product description by clicking on **Apply** button in the popup.

Shop Frontend.

7. API Key Generation

The user must first create an OpenAI account and login OpenAI dashoboard

https://platform.openai.com/signup
