

## Additional Fee/Contribution Extension

### **Product Specification**

The Additional Fee/Contribution is an extension for Magento 2 developed by PIT Solutions which is designed to enhance the checkout experience for customers by allowing them to contribute towards various social initiatives, provide tips to manufacturers, or select from different gift-wrapping options by giving the option to manage an "Additional Fee/Contribution" field in the checkout. This extension can be easily installed on your online store, and it enables you to create and manage different fee types that customers can select and add to their orders during checkout.

A merchant who wants "The Contribution Fee" feature can allow customers to contribute towards social initiatives such as environmental conservation, poverty alleviation, or any other social cause that aligns with their brand's values. Customers can select the amount they want to contribute, and it will be added to their total order amount.

A merchant who wants a "Tips" feature can allow customers to add a gratuity to show their appreciation to the manufacturers or employees who have contributed to the making or shipping of the product. This feature can be customized to show different tip amounts or a custom tip option.

A merchant who wants a "Gift-Wrapping" feature allows customers to select from different gift-wrapping options and add the associated fee to their order. You can create multiple gift-wrapping options with different styles, materials, and pricing.

The options that can be availed by merchants using this plugin are numerous. With this extension, you can also track the additional fees/contribution collected and use them for the intended purpose or donate them to the relevant social cause. The Additional Fee/Contribution extension adds more value to your online store by providing customers with options to contribute towards social causes, show their appreciation, and customize their orders.

### **Features**

- Can easily Enable / Disable the Additional Fee/Contribution extension.
- Supports multi-website, multi-store, multi-lingual and multi-currency.
- Option to change the label of the field according to the purpose of admin/store owner.
- Having Enable / Disable option for the predefined amount and custom amount.
- Label of custom amount can also be modified.
- Can be able to add multiple predefined amounts and label the amount if needed.

## 2.0 How It Works in Frontend

On the checkout page, there is an Additional Fee/Contribution field (Figure-2). It can be a "Contribution", "Tip", "Gift-Wrapping" fee or so on, which can be managed by Admin based on the need. Customers can choose additional fee / contribution and add it to their order during checkout.

### 2.1 Checkout Page

The screenshot shows the 'Payment Method' section of a PITS checkout page. At the top right is an 'Order Summary' box with the following details:

Order Summary	
Cart Subtotal	\$45.00
Shipping	\$5.00
Flat Rate - Fixed	
Tax	\$4.50
<b>Order Total</b>	<b>\$54.50</b>

Below the summary is a 'Place Order' button. The main form area includes fields for 'Additional Fee/Contribution' (with a dropdown menu highlighted by a red box) and 'Apply Discount Code'. The 'Ship To:' section shows the same shipping information as the summary.

Expand the Additional Fee/Contribution dropdown to view the Fee Amount:

The dropdown menu is titled 'Additional Fee/Contribution' and contains the following options:

- Contribution to Green Initiative (\$10.00)
- Contribution to Green Initiative (\$20.00)
- Contribution to Green Initiative (\$30.00)
- Contribution to Green Initiative (\$40.00)
- Custom Contribution

At the bottom are 'Apply' and 'Clear' buttons.
