

## Description

wallee Extension from PIT Solutions is a connector between wallee and Odoo Web Shop. It is a standardized way to accept payments via a multitude of different payment providers in the world. It is a single payment gateway to send payments to Adyen, Braintree, Ingenico, Heidelpay, PostFinance, Concardis, FirstData, Datatrans, SagePay, Barclaycard, etc. Beside the payment processing wallee offers a wide range of additional features like reconciliation.

This extension connects Odoo shop user to the payment hub, which has more than 50 payment gateways and processors linked to it. The Connector works with the help of the Rest API's. This reduces the tendency of customers abandoning their cart when their preferred payment gateway is missing in the payment page. It also connects the user to the different payment service provider APIs and thereby lowering the costs of using payment routing.
