

Contact For Price

Product specification

Contact For Price is a Magento 2 extension developed by PIT solutions which supports e-commerce shop owners to manage the product price and Add To Cart button visibility. It pushes customers to contact the store as well as hide product price effectively.

Features

- Hide price and Add To Cart button for individual products.
- Hide price and Add To Cart button for products in a category.
- Replace product price with 'Request For Price' or 'Call For Price' button.
- Easy to manage price visibility.
- Can customize 'Request For Price' button label.
- Pop-up price request form for customers.
- Enable/ Disable the extension.
- Directly communicate with store via email or telephone.
- Access control for admin users.

Screenshots / Video

Configuration:

From the admin backend, go to Stores > PITS Configuration > Contact For Price

The screenshot shows the Magento admin configuration interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Configuration' and shows the 'PITS CONFIGURATION' section expanded to 'Contact For Price'. The 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right. The configuration settings are as follows:

- Enable** (store view): Yes. Enable/Disable Contact For Price Module.
- Show Contact Button** (store view): Yes. Display 'Request for price' button in front-end which will enable customers to contact admin for price. If set as 'No' Contact For Price, Product Price and Add To Cart button will not be displayed.
- Enable Call For Price** (store view): No. If enabled will display 'Call for price' button instead of 'Request for price'. Customer will be able to contact the shop by using the configured telephone number.
- Custom Button Label** (store view): [Empty text field]. Customize Contact For Price button label.
- Contact Email Address** (store view): test@gmail.com. Customer request for price will be sent to this address.

At the bottom of the page, there is a copyright notice: 'Copyright © 2020 Magento Commerce Inc. All rights reserved.' and the version information: 'Magento ver. 2.3.0 Report an Issue'.

The screenshot displays the Magento 2.3.0 Configuration interface for the PITS module. The 'General Settings' section is active, showing the following configuration options:

- Enable** (store view): Yes
- Show Contact Button** (store view): Yes
- Enable Call For Price** (store view): Yes
- Telephone Number** (store view): 123456789
- Custom Button Label** (store view): (empty)

The footer of the page includes the copyright notice: Copyright © 2020 Magento Commerce Inc. All rights reserved. and the version information: Magento ver. 2.3.0. A link to 'Report an Issue' is also present.

1. Enable the module. Select **Yes** in the Enable dropdown option.
2. Keep **Show Contact Button** option as **No** if you don't want to show **Request for price** button for the product.
3. Select **Show Contact Button** option as **Yes** if you want to hide price and Add to Cart button of product and display **Request for price** button in place of product price in the frontend. Clicking this button will open a pop-up where customer can submit request for a specific products price.
4. Select **Enable Call for Price** option as **Yes** if you want to enable customers with option to call shop directly via telephone. If the option is enabled '**Call for price**' button will be displayed instead of '**Request for price**' button. On clicking the button telephone application will be opened in the customer's device with Admin's telephone number in it. You can specify the telephone number in the **Telephone Number** field.
6. You can change the **Request for price/Call for price** button label by entering new label in the **Custom Button Label** field.

7. Please enter the email address in the field **Contact Email Address** to where you want to get the request from customers for price.
8. Click **Save Config** and clear the cache. That's it.

To hide price and Add to Cart for a specific product set **Hide Product Price** to **Yes** by editing the product.

The sporty Joust Duffel Bag can't be beat - not in the gym, not on the luggage carousel, not anywhere. Big enough to haul a basketball or soccer ball and some sneakers with plenty

To hide price and Add to Cart for products in a specific category set **Hide Product Price to Yes** by editing the category.

[Customer Service](#)

Note:

In case of Bundle products, "Hide Product Price" option should be enabled for parent products.

The email template depends on the theme being used in the shop and can be changed from backend by the admin user.

Please make sure to clear cache from backend **System->Cache Management** after making changes in backend configurations

Need to set the default magento cron for the shop which uses the module. Otherwise mails will not receive.

Manage User Role

Step 1 : Go to Admin > System > User Roles

The screenshot shows the Magento Admin System menu. The 'User Roles' option is highlighted with a red box. The menu items are as follows:

- System
- Cache Management
- Backups
- Index Management
- Web Setup Wizard
- Integrations
- Tools
- Other Settings
- Notifications
- Custom Variables
- Manage Encryption Key
- Integrations
- Tools
- Other Settings
- Notifications
- Custom Variables
- Manage Encryption Key

The background shows the 'User Roles' page with a table of roles and a 'Reload Data' button.

Role Name	Users	Permissions
All Users	1	Full Control
Locked Users	0	None
User Roles	0	None

Step 2 : Add a new role resource

Fill in the role information section.

New Role

ROLE INFORMATION

Role Info

Role Resources

Role Information
