

Contact For Price

Product specification

Contact For Price is a Magento 2 extension developed by PIT solutions which supports e-commerce shop owners to manage the product price and Add To Cart button visibility. It pushes customers to contact the store as well as hide product price effectively.

Features

- Hide price and Add To Cart button for individual products.
- Hide price and Add To Cart button for products in a category.
- Replace product price with 'Request For Price' or 'Call For Price' button.
- Easy to manage price visibility.
- Can customize 'Request For Price' button label.
- Pop-up price request form for customers.
- Enable/ Disable the extension.
- Directly communicate with store via email or telephone.
- Access control for admin users.

Prerequisites

Magento Community 2.3.x, 2.4.x

Installation

To install Contact For Price module follow the steps below.

Step 1: Download Contact For Price module extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into `app/code/Pits/ ContactForPrice /` directory.

Step 3: Run the following commands to complete the installation.

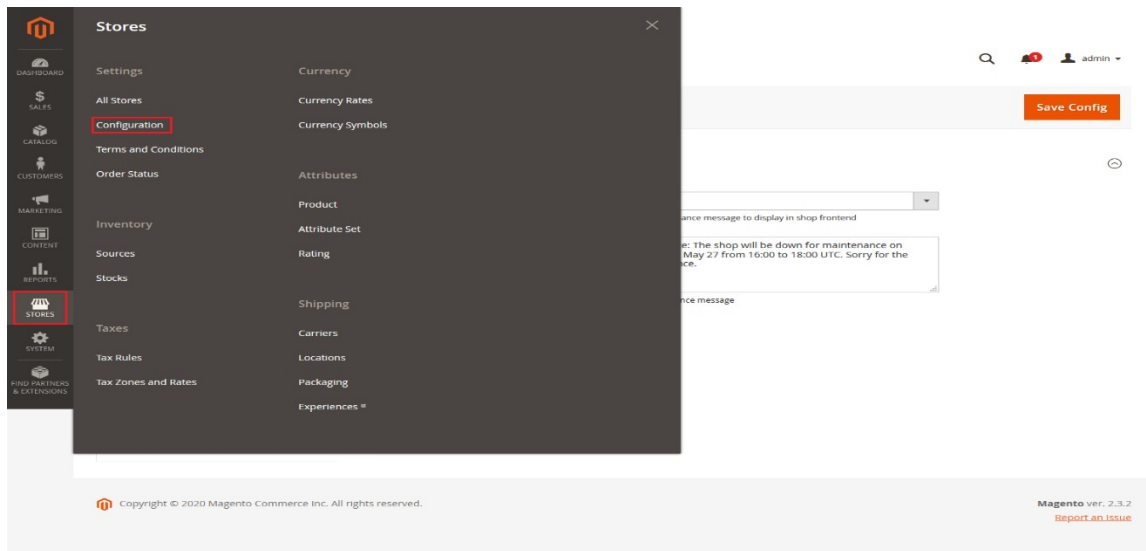

1. Enable the module - `php bin/magento module:enable`
2. Update of the database - `php bin/magento setup:upgrade`

3. Generate and pre-compile classes - php bin/magento setup:di:compile
4. Deploy static files - php bin/magento setup:static-content:deploy

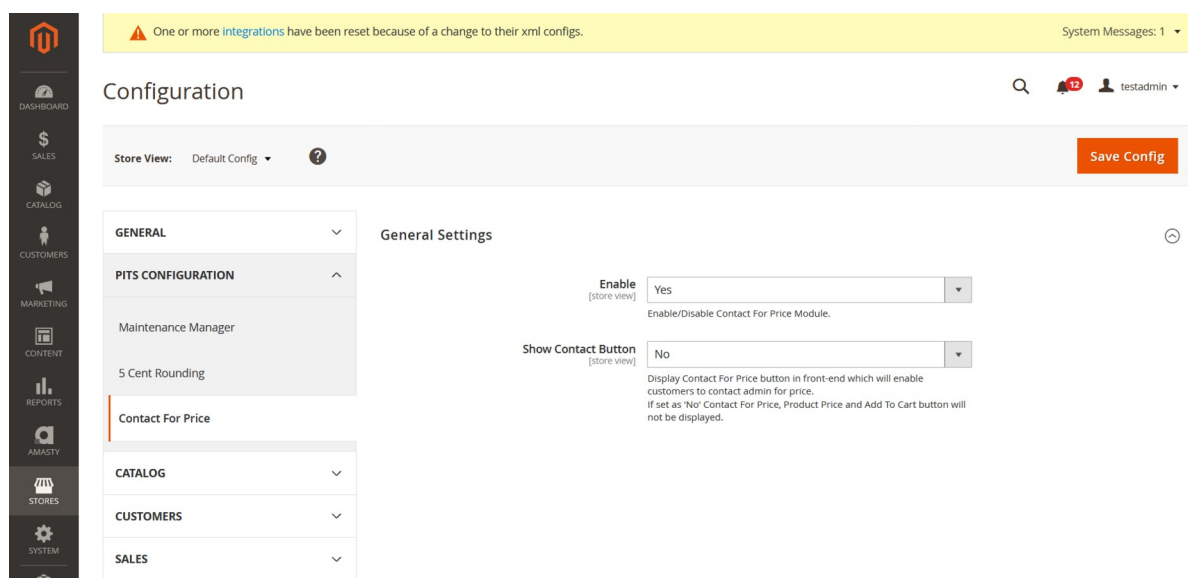

Configuration

From the admin backend, go to **Stores > PITS Configuration > Contact For Price**

Configure Contact For Price

- Enable the module.
 1. Select **Yes** in the Enable dropdown option.

The screenshot shows the Magento Configuration interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Configuration' and shows 'Store View: Default Config'. A 'Save Config' button is in the top right. The 'PITS CONFIGURATION' section is expanded, and 'Contact For Price' is selected and highlighted with a red box. The 'General Settings' for 'Contact For Price' are displayed on the right:

- Enable** [store view]: Yes
- Show Contact Button** [store view]: Yes
- Enable Call For Price** [store view]: No
- Custom Button Label** [store view]: (empty field)
- Contact Email Address** [store view]: test@gmail.com

At the bottom of the page, there is a copyright notice: 'Copyright © 2020 Magento Commerce Inc. All rights reserved.' and the version information: 'Magento ver. 2.3.0' with a link to 'Report an Issue'.

2. Keep **Show Contact Button** option as **No** if you don't want to show **Request for price** button for the product.

3. Select **Show Contact Button** option as **Yes** if you want to hide price and Add to Cart button of product and display **Request for price** button in place of product price in the frontend. Clicking this button will open a pop-up where customer can submit request for a specific products price.

4. Select **Enable Call for Price** option as **Yes** if you want to enable customers with option to call shop directly via telephone. If the option is enabled '**Call for price**' button will be displayed instead of '**Request for price**' button. On clicking the button telephone application will be opened in the customer's device with Admin's telephone number in it. You can specify the telephone number in the **Telephone Number** field.

6. You can change the **Request for price/Call for price** button label by entering new label in the **Custom Button Label** field.

7. Please enter the email address in the field **Contact Email Address** to where you want to get the request from customers for price.
8. Click **Save Config** and clear the cache. That's it.

To hide price and Add to Cart for a specific product set **Hide Product Price** to **Yes** by editing the product.

The screenshot shows the Magento 2 product configuration interface for 'Simple product 1'. A yellow banner at the top indicates that one or more integrations have been reset. The left sidebar contains navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Admin, Stores, and System. The main configuration area includes fields for Enable Product (Yes), Attribute Set (Default), Product Name (Simple product 1), SKU (Simple), Price (1,100.00), Tax Class (Taxable Goods), Quantity (7789970), Stock Status (In Stock), Weight (lbs), Visibility (Catalog, Search), Categories (Default Category, Test Category), Set Product as New From, Country of Manufacture, and Color. The 'Hide Product Price' toggle is currently set to 'Yes' and is highlighted with a red rectangular box.

The product will be displayed like below in frontend.

Email will be as below.

A screenshot of an email template. At the top left is the LUMA logo, which consists of four overlapping circles in blue, green, yellow, and orange, followed by the word 'LUMA' in a bold, black, sans-serif font. Below the logo is the title 'Request For Price Submission' in a bold, black, sans-serif font. Underneath the title are several fields: 'Name: Customer Name', 'Email: customer_email@gmail.com', 'SKU: Simple', and 'Telephone:'. Below these is a 'Description:' field with a text input box containing the placeholder text 'Please share the best offer for the product.'. At the bottom left of the email content area are two links: 'About Us' and 'Customer Service', both in a blue, sans-serif font.

Note:

In case of Bundle products, "Hide Product Price" option should be enabled for parent products.

The email template depends on the theme being used in the shop and can be changed from backend by the admin user.

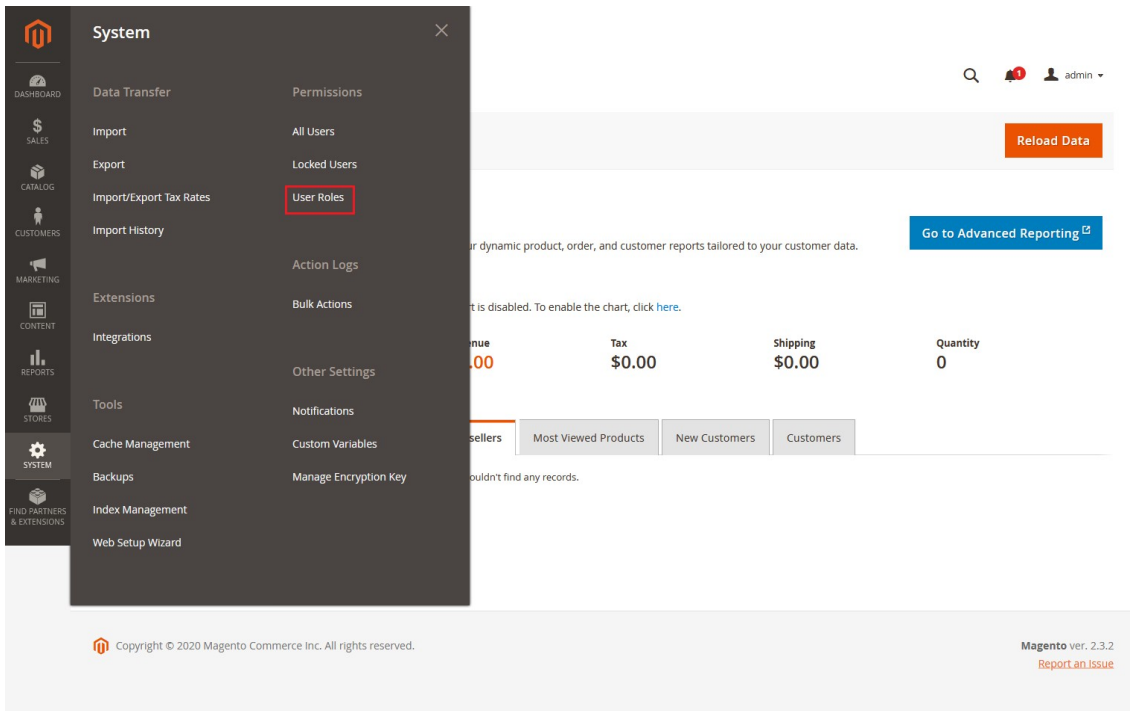

Please make sure to clear cache from backend **System->Cache Management** after making changes in backend configurations

Need to set the default magento cron for the shop which uses the module. Otherwise mails will not receive.

Manage User Role

Step 1 : Go to Admin > System > User Roles

Step 2 : Add a new role resource

Fill in the role information section.
