1. Introduction

The POS Wallee Payment Acquirer Plugin from PIT Solutions offers a seamless and efficient solution for Odoo POS merchants in Europe and Switzerland. By automating the payment process, this plugin eliminates the need for manual payment entry, reducing checkout times and minimizing human errors.

Traditionally, Odoo POS merchants faced the challenge of manually entering payment amounts into their payment terminals. This time-consuming and error-prone process often led to longer checkout times and difficulties in reconciling orders.

The Wallee POS Payment Terminal Plugin addresses these issues by:

- **Automating Payment Processing**: Eliminating manual data entry and reducing the risk of human errors.
- **Streamlining the Checkout Process**: Providing a faster and more efficient payment experience for both merchants and customers.
- **Enhancing Accuracy**: Ensuring that payment amounts are accurately transferred from the Odoo POS to the Wallee payment terminal.
- Increasing Efficiency: Optimizing the checkout process and reducing operational costs.
- Enhancing Customer Satisfaction: Delivering a faster and more convenient payment experience.
- **Ensuring Compliance**: Benefiting from Wallee's adherence to industry security standards.

Document No: 1 Ver.1 Page **3** of **21**

2. Features

Reduced Checkout Time

- Faster Payments: Streamline the payment process, reducing wait times for customers.
- Improved Customer Satisfaction: Provide a more efficient and enjoyable shopping experience.

Easy Integration

- Seamless Integration: Effortlessly integrate the plugin into your Odoo POS system.
- o **Minimal Setup**: Get up and running quickly with minimal configuration.

Enhanced Security

- Secure Transactions: Benefit from Wallee's robust security measures to protect customer data.
- o **Compliance**: Adhere to industry standards for payment security.

• Improved Accuracy

- Eliminate Errors: Prevent manual data entry mistakes and ensure accurate payment processing.
- Streamline Reconciliation: Simplify the reconciliation process with accurate transaction data.

Additional Enhancements

- o Implemented Wallee Payment Python Library.
- Implemented refunds for all POS orders.

Supported Payment Connectors

o American Express, Dankort, Diners Club, Mastercard, Visa.

3. Working

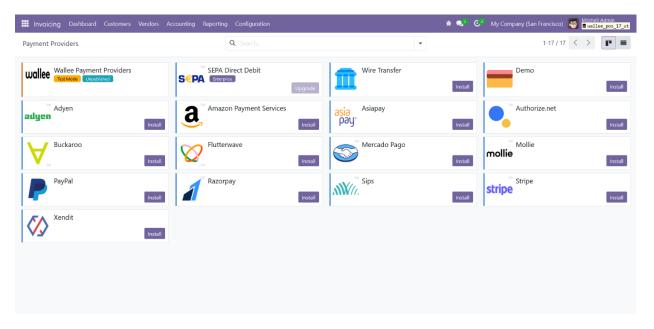

The POS Wallee Payment Acquirer Plugin establishes a connection between Odoo POS users and the Wallee payment gateway via a payment terminal. This integration uses REST APIs to enable seamless communication and data exchange between the plugin and the Wallee payment platform.

Screenshot 1: Payment Providers Listed in Odoo Backend

You can access the payment providers through the following menu option:

Invoicing > Configuration > Payment Providers

These paths will direct you to the configuration settings for managing payment providers.

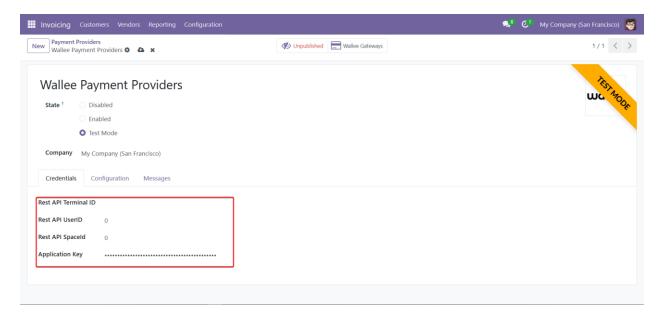

Document No: 1 Ver.1 Page 5 of 21

Screenshot 2: Odoo Backend Configuration of Wallee Credentials

After selecting the Wallee Payment Provider from the list, navigate to the *Credentials* tab. In this section, you can enter the credentials for your Wallee Payment Provider space.

To configure the Wallee Payment Provider in Odoo, you will need the following details from Wallee:

- 1. **REST API User ID:** The *Application User ID* created on app-wallee.com.
- 2. **REST API Space ID:** The *Space ID* obtained from app-wallee.com.
- 3. **Application Key:** The *Application Key* generated on app-wallee.com.
- 4. **REST API Terminal ID:** The identifier of the terminal to be used for processing transactions.

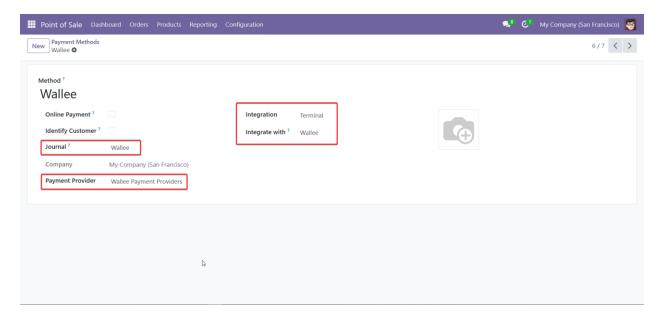

After entering these details, you can set the status to 'Enabled' for live transactions or 'Test Mode' for testing purposes.

Screenshot 3: Create POS Payment Method for Wallee

To create a POS payment method for Wallee, navigate to *Point of Sale > Configuration > Payment Methods*. From this screen, click on the '*New*' button to create a new payment method.

Then create a new payment method, naming it "Wallee." Assign a suitable journal for tracking Wallee transactions. Under the "Payment Provider" field, select "Wallee Payment Providers." Finally, choose the "Terminal" option from Integration and select "Wallee" from Integrate with option.
