

Special Price Countdown

Prerequisites

Magento Community 2.3.x, 2.4.x

Installation

To install special price countdown module follow the steps below.

Step 1: Download Special price countdown module extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into `app/code/Pits/SpecialPriceCountdown/` directory.

Step 3: Run the following commands to complete the installation.

1. Enable the module - `php bin/magento module:enable`
2. Update of the database - `php bin/magento setup:upgrade`
3. Generate and pre-compile classes - `php bin/magento setup:di:compile`
4. Deploy static files - `php bin/magento setup:static-content:deploy`

Configuration

From the admin backend, go to **Stores > PITS Configuration > Special Price Countdown Configuration**

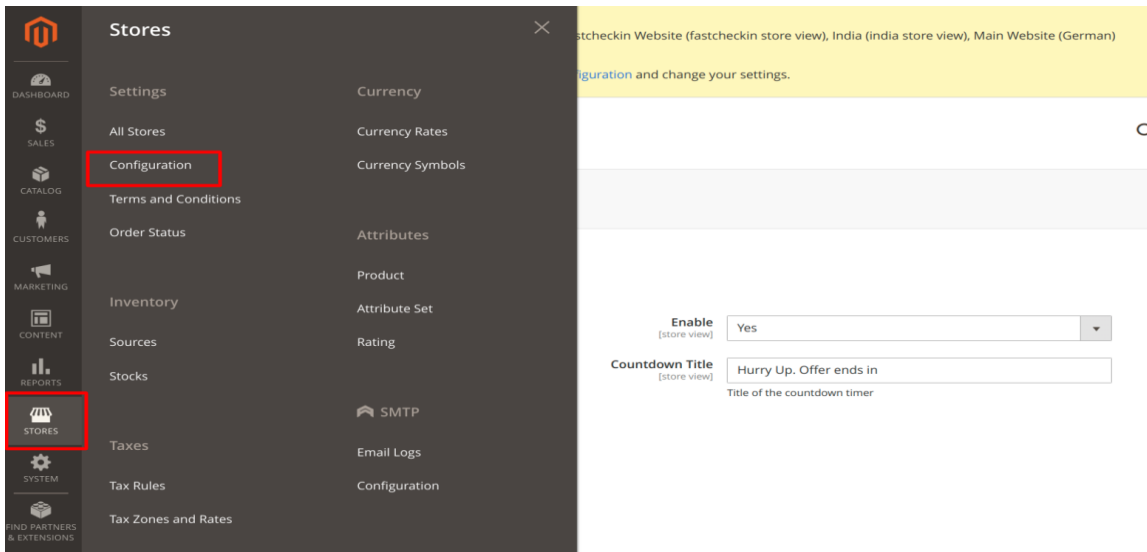

Figure 1

Configure Special price countdown timer

General Configuration

1. **Enable** - Select **Yes** to Enable the module

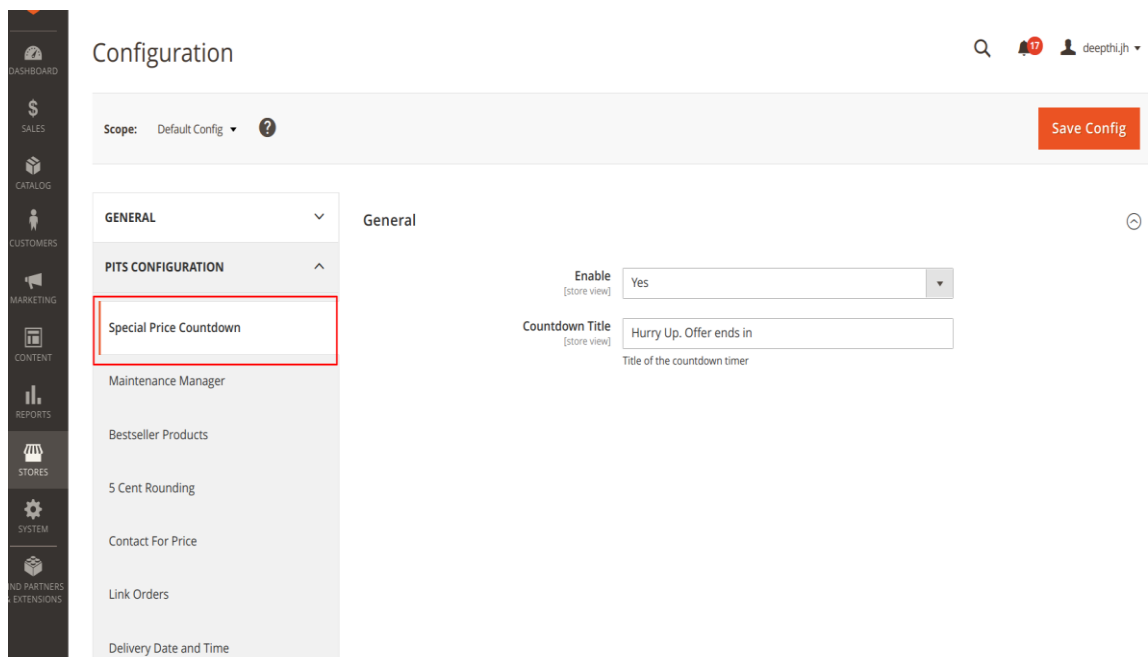

Figure 2

2. **Countdown Title** – Enter title to be displayed in product view page
3. Click **Save** Config and clear the cache.

Product Configuration

1. Configure Advanced pricing

- Open the product in edit mode.
- Under Price, click Advanced Pricing.
- Enter the special price to offer a discounted price during a specified time period
