## Implementation Guide

### PITS Timesheet-Payroll Sync

---

# PITS Timesheet-Payroll Sync Addon for Online Store

## Introduction

Timesheet-Payroll Synchronization extension from PIT Solutions can be used to synchronize the Employee Timesheet with Payslip. The total worked hours will be available in the Payslip itself based on the Payslip date period.

PIT Solutions is a global IT services company with their HeadQuarters in Switzerland. They focus on offering high end ecommerce solutions to their clients. For more details, please check PIT Solutions

This extension is a permanent solution for salary computation based on the Timesheet of an employee. You will get the Timesheet details in the Employee Payslip. It is automatically get filled based on the employee, start date, and end date. This can be used for salary computations which are depending on the worked hours like the salary of daily wage employees, extra payment for overtime work, Etc.

## Configuration Instructions

Go to Payroll --> Configuration --> Settings

Here set the unit of measure which is corresponding to the Number of Hours in payslip Worked Days.

The screenshot displays the 'Settings' page for the 'Payroll' module. The left sidebar contains navigation options: Sales, Invoicing, Payroll, Project, Timesheets, Employees, and General Settings. The main content area is divided into several sections:

- Payroll**: Includes 'Payroll Rules' (Payroll rules that apply to your country) with a link to 'Choose a Payroll Localization'.
- Accounting**: Features a checkbox for 'Payroll Entries' (Enterprise) with the note 'Post payroll slips in accounting'.
- Timesheet Sync**: Contains a 'Configuration' section with the instruction 'Set unit of measure which is corresponding to the Number of Hours in Payslip'. The 'Payroll Hours Unit' dropdown menu is highlighted with a red box and currently shows 'Hour(s)'. There is also a link icon next to the dropdown.
- Payslip Configuration**: Includes a 'Configuration' section with the instruction 'Set the Payslip start day'.

The top navigation bar shows 'Payroll' as the active module, with sub-links for 'Employee Payslips', 'Payslips Batches', 'Allowance and Deductions', and 'Configuration'. The user 'Mitchell Admin' is logged in.
