

Product Document Attachments Upload Extension

Product Specification:

The product document upload extension allows admin users to upload product specification documents that can be displayed on the product detail page. The extension facilitates admin users to create an attribute that allows to upload documents. This extension will add an "upload files" type to the "Catalog input type for store owner" select box in the product attribute form field. This extension supports multiple file formats.

Technical Requirements/Compatible with:

Magento Community 2.3.1 to 2.4.x

Supported Languages:

English and German

Installation:

To install the module follow the steps below.

Step 1: Download the module/extension and unzip it.

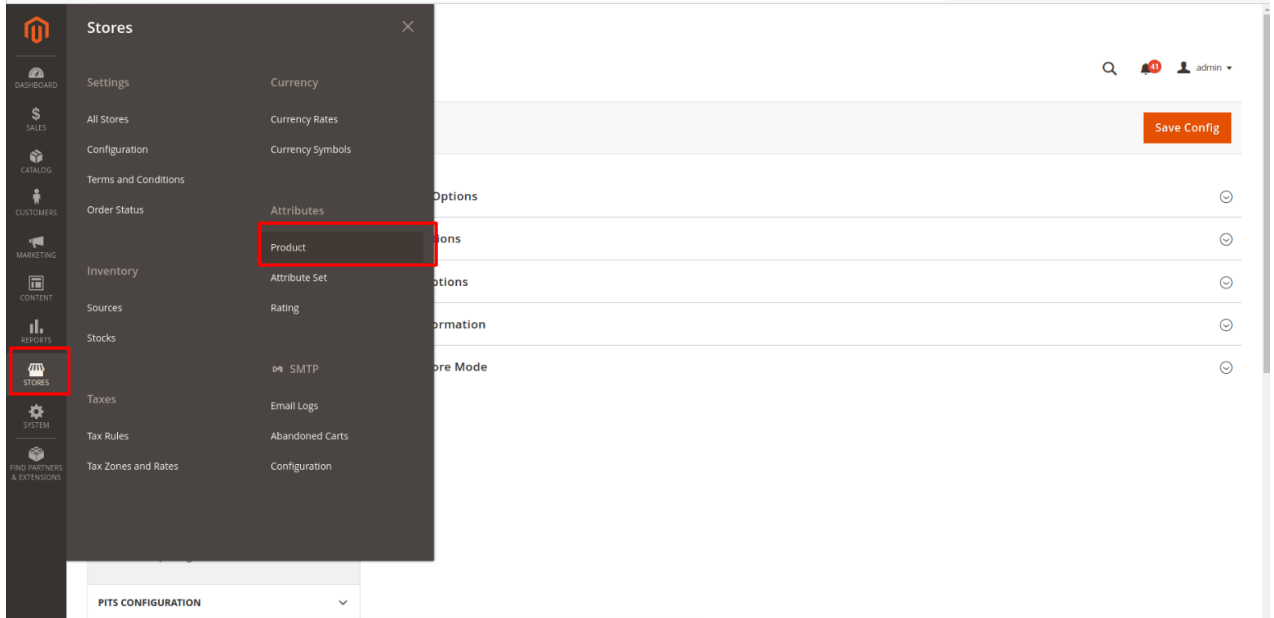

Step 2: Access your web server directories and upload the content of the folder into `app/code/Pits/ProductDocumentsUpload` directory.

Step 3: Run the following commands to complete the installation.

1. Enable the module - `php bin/magento module:enable`
2. Update of the database - `php bin/magento setup:upgrade`
3. Generate and pre-compile classes - `php bin/magento setup:di:compile`
4. Deploy static files - `php bin/magento setup:static-content:deploy`

Configuration:

1. From the admin backend, go to Stores > Attributes > Product > Add New Attribute
