

## Quick Login plugin for Shopware 6

### 1. Pre-requisites

Shopware 6.1.x, 6.2.x and 6.3.x versions.

### 2. Installation

To install the module, follow the steps below.

Step 1: Download the module/extension and unzip it.

Step 2: Access your web server directories and upload the content of the folder into custom/plugins/PitsEmailLogin directory.

Step 3: Run the following commands to complete the installation.

1. Refresh plugin: `php bin/console plugin:refresh`
2. Active plugin: `php bin/console plugin:install --activate PitsEmailLogin`
3. Clear cache: `php bin/console cache:clear`

OR the provided zip file can be uploaded from backend Settings-> System-> Plugins and use Upload plugin.

### 3. Quick Login plugin for Shopware 6

Introducing the Quick Login plugin for Shopware, a revolutionary solution that simplifies the login process for your customers while prioritizing security. With this extension, users can seamlessly access their accounts without the need to remember passwords. Instead, a secure login link is sent to their registered email, enhancing both convenience and data protection.

### 4. Features

- One-Click Access: Log-in made simple! Registered customers can authenticate their identities without the hassle of remembering complex passwords or worrying about their personal information falling into the wrong hands.
- Persists cart items: Products added as guest will be carried forward to the cart when customer logs in and the customer can follow normal purchase flow.
- Flexibility: Admin can customise the email template (which is sent to customer with one time login url), frontend email field label and button text

- Enhanced Security: The login link is time-sensitive and expires after a predefined period, adding an extra layer of security.
- Customizable Expiry Period: Admin can configure the link expiry period in the admin panel.
- Multi Store Support: Ideal for businesses with multiple stores, the extension supports seamless password-free logins across different storefronts.

Empower your customers with a hassle-free and secure login experience. The " Quick Login plugin " not only simplifies the login process but also enhances the security of user accounts, making it an essential addition to your Shopware store. Upgrade your authentication system to a passwordless model for a modern and user-centric approach to account access.

## 5. Configuration

Settings-> System-> Plugins-> Pits Email Login-> Configure.

The screenshot shows the 'My extensions' page in the Shopware Admin Panel. At the top, there is a 'My extensions' header and a blue button with a refresh icon. Below the header, there are tabs for 'Apps', 'Themes', 'Recommendations', and 'Shopware Account'. A 'Hide inactive extensions' toggle is set to 'on'. A 'Last updated' dropdown menu is visible. The main content area displays a list of extensions, with one extension highlighted by a red border: 'Pits - Quick Login'. The extension details include a version of '1.0.0' and an installation date of '11/12/2023'. A three-dot menu icon is present to the right of the extension entry.
