

User Manual
Order Share for Shopware 6

1. Prerequisites

- Shopware 6.6.x

2. Product Specification

The **PitsOrderShare** plugin for Shopware provides a seamless way to share order details via email, with the option to include detailed product specifications. This feature enhances transparency and provides a comprehensive overview of the products included in the order. Below are the product specification details:

3. Key Benefits

The **PitsOrderShare** plugin enhances the customer experience and streamlines order sharing with the following benefits:

- **Improved Customer Communication**
 - Allows customers to easily share their order details with others via email.
 - Ideal for gifting or sharing order information with team members, family, or friends.
- **Guest and Registered User Access**
 - Shared orders can be viewed by logged-in customers.
 - Ensures inclusivity and flexibility for all types of users.
- **Enhanced Engagement**
 - Facilitates discussions and decisions by allowing easy sharing of detailed order data.
- **Effortless Integration**
 - Seamlessly integrates into the Shopware ecosystem without disrupting existing workflows.
- **User-Friendly Interface**
 - A simple and intuitive process for customers to share order details with just a few clicks.

4. Installation Steps for PitsOrderShare

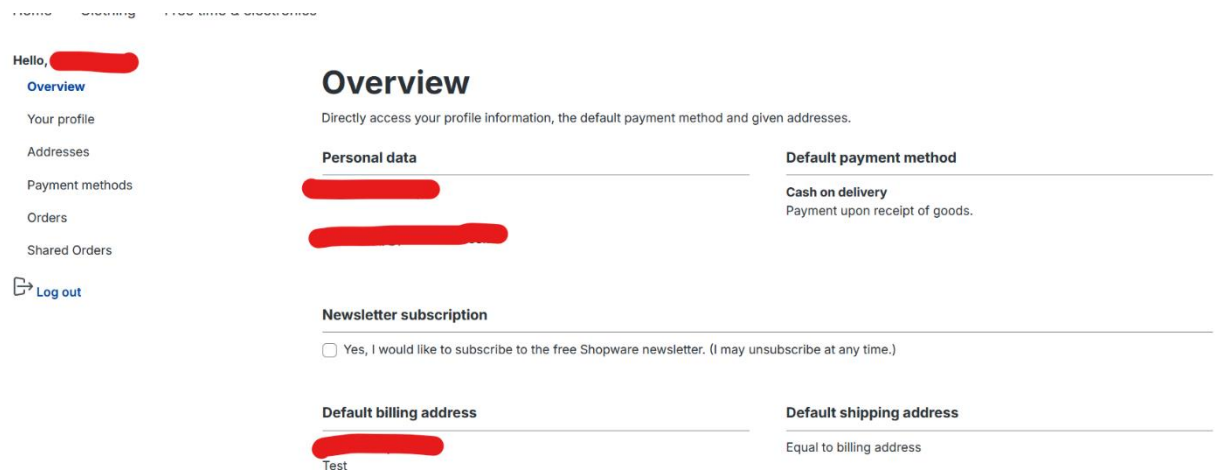

- **Upload the Plugin**
 - Place the plugin folder (PitsOrderShare) into the following directory of your Shopware installation
- **Navigate to Shopware Root Directory**
- **Install the Plugin**
 - Run the following command to install the plugin:
 - `bin/console plugin:install PitsOrderShare`
- **Activate the Plugin**
 - Run the following command to activate the plugin:
 - `bin/console plugin:activate PitsOrderShare`
- **Clear Cache**
 - Clear the cache to ensure the changes take effect:
 - `bin/console cache:clear`

5. System Requirements
