

Description

wallee Extension from PIT Solutions is a connector between wallee and Odoo Web Shop. It is a standardized way to accept payments via a multitude of different payment providers in the world. It is a single payment gateway to send payments to Adyen, Braintree, Ingenico, Heidelpay, PostFinance, Concardis, FirstData, Datatrans, SagePay, Barclaycard, etc. Beside the payment processing wallee offers a wide range of additional features like reconciliation.

This extension connects Odoo shop user to the payment hub, which has more than 50 payment gateways and processors linked to it. The Connector works with the help of the Rest API's. This reduces the tendency of customers abandoning their cart when their preferred payment gateway is missing in the payment page. It also connects the user to the different payment service provider APIs and thereby lowering the costs of using payment routing.

The screenshot shows a web application interface. At the top left is the 'pit' logo. To its right is the text 'wallee EXTENSION'. Below this is a navigation bar with links for 'Home', 'Shop', 'Contact us', 'My Cart', and 'Menu'. The main content area is titled 'Cancelled payments' and contains a table with one row:

Transaction ID	Amount
S0087-1	876.26 USD

Below the table, a message states: 'This transaction has been cancelled. No payment has been processed.'

The footer contains three columns: 'Our Products & Services' with a 'Home' link; 'Connect with us' with contact information (+1 555 123 8069, info@yourcompany.example.com) and social media icons; and 'YourCompany - About us' with a description of the company's mission and a note that products are designed for small to medium size companies. The footer also includes copyright information and a note that the application is powered by 'the #1 Open Source eCommerce'.
