1.0 Introduction

The datatrans payment acquirer plugin is easy to install and fits neatly into the odoo webshop as an additional payment module. Datatrans is the leading Swiss Payment Service Provider which supports a wide range of payment methods under card payment method, digital wallets and other alternative payment methods. This plugin works in redirect mode, where the customer will be redirected to the Datatrans Payment Page that gives access to all payment methods supported by the configured merchant with just a single integration. The advantage is fast, secure and simple payments eventually leads to higher turnover.

1.1 Features

Screenshot 1: Datatrans Webadmin Tool - Merchant ID

datatrans.

The screenshot shows the Datatrans webadmin interface. At the top, there are navigation tabs: Transactions, Reports, Process, **UPP Administration**, and User Administration. Below these, there are sub-tabs: UPP Data, Payment Methods, UPP Designer, Security, and Fraud Risk Management. The main content area is titled "UPP data" and contains a form with a label "Merchant-ID:" followed by a redacted field.

Screenshot 2: Datatrans Webadmin Tool - Sign

datatrans.

The screenshot shows the Datatrans webadmin interface. At the top, there are navigation tabs: Transactions, Reports, Process, **UPP Administration**, and User Administration. Below these, there are sub-tabs: UPP Data, Payment Methods, UPP Designer, **Security**, and Fraud Risk Management. The main content area is titled "Transaction security" and includes a link to "Server-to-Server services security". A red warning message states: "Attention: To secure your payments against manipulation, you are required to implement one of the measures which". Below this, there is a link to "https://docs.datatrans.ch/docs/security-validation". A radio button is selected, and the text reads: "An additional Merchant-IDentification will be send with payment messages". Below this, it says: "The parameter **sign** with following value must be sent with every authorisation message". The label "sign =" is followed by a redacted field. To the right of the field is a link: "→ Generate new sign".

1.3 Brief description

For smooth working of this plugin there are few configurations which are to be done in the backend. Setting up datatrans acquirer configuration is the initial step where the merchant Id and sign of your datatrans web administration tool must be provided. Once the configuration is set there are two payment acquirers available by default, one is Datatrans - Credit Cards which supports credit card payment methods like Visa, Mastercard, American Express, Diners, Discover etc and the other is Datatrans which is mapped to other alternative payment methods like debit cards and digital wallets. Activate any of them and continue shopping. The payment acquirer will be listed in the shop payment page. Choose the datatrans payment acquirer and pay from the datatrans payment page and get back to the odoo webshop.

1.3.1 Initial step-by-step description

Prerequisites: Before integrating the Datatrans payment acquirer plugin make sure that you have an datatrans web administration tool - The interface with which you can Easily verify and process transactions. Merchant Id and Sign are the details we need from the webadmin tool for odoo backend configuration.

1. Step 1 - Datatrans Configuration and Acquirer configuration
2. Step 2 - Activate/Publish/Enable Datatrans Payment Acquirer
3. Step 3 - Go to Ecommerce website -> Add products to cart -> Proceed to checkout
4. Step 4 - Choose datatrans payment method and Pay now
5. Step 5 - Complete the transaction by filling out necessary details in Datatrans Payment Page
6. Step 6 - Order is placed on successful payment transaction

1.4 Technical Requirements / Compatible With:

Technical Requirements: Odoo Sales, Payment, Contact and Website Module

Compatible with ODOO version 12 and 14

1.5 Datatrans Payment Page Supported Languages:

German, English, French, Italian, Spanish, Greek, Norwegian, Danish, Polish, Portuguese
