

Link Guest Orders to Customer Account

Product specification

Link Guest Orders to Customer Account is a Magento 2 extension developed by PIT solutions which automatically assigns guest orders to the existing customer account with the same email address during customer registration.

Features

- During customer registration, it checks if any guest order exists with that email address and if exists then it assigns that to the customer account.
- Automatically set default shipping and billing addresses to customer.
- Allows configuring a follow-up email for guest orders which can ask customers to register.
- Enable/ Disable the extension.
- Enable/ Disable the follow-up email in extension.
- Access control for admin users.

Screenshots / Video

The screenshot shows the Magento 2 Configuration interface for the 'Link Guest Orders to Customer Account' extension. The left sidebar contains a navigation menu with categories like DASHBOARD, SALES, CATALOG, CUSTOMERS, SECURITY, CUSTOMERS, SALES, MAGEPAL, YOTPO, DOTDIGITAL, SERVICES, and ADVANCED. The main content area is titled 'Configuration' and has a 'Save Config' button in the top right corner. The configuration is divided into two sections: 'General Settings' and 'Email Configuration'. In the 'General Settings' section, the 'Enable' dropdown is set to 'Yes', with a note 'Enable/Disable Link guest orders to customer'. In the 'Email Configuration' section, the 'Enable' dropdown is also set to 'Yes', with a note 'If enabled a follow up email will be sent'. The 'Email Sender' dropdown is set to 'Customer Support'. The 'Email Template' dropdown is set to 'Guest Order Email Configuration (Default)', with a checked box for 'Use system value' and a note 'Email template chosen based on theme fallback when Default option is selected.'. The 'Send Email Copy To' field is empty, with a note 'Comma-separated.'. The 'Send Email Copy Method' dropdown is set to 'Bcc', with a checked box for 'Use system value'.
